A Hole Where My Heart Should Be Michele Leembruggen, 2025-02-04 Vivid and compelling a memoir of childhood loss and betrayal of healing and redemption Immersive confronting and beautiful As a sensitive damaged young woman Michele Leembruggen craved love and security but it proved an elusive dream because she functioned from the blueprint of her abusive chaotic childhood which set her up to fail in a perpetual ground hog day To the outside world Michele projected an air of calm control and efficiency but on the inside something felt very wrong Under the weight of unresolved trauma her terror of intimate relationships and of life she succumbed to chronic anxiety and depression self medicating with alcohol and dissociating not realising she suffered from quiet borderline personality disorder and complex PTSD After many years of searching for a cure Michele found a trauma therapist who promised healing but whose own unresolved trauma threw Michele into a destabilising reenactment of her dysfunctional relationship with her borderline and narcissistic mother and she became pathologically obsessed When the worst happened and the therapist abruptly stopped seeing her Michele's fight for sanity and healing truly began **A Hole Where my Heart Should Be** is a beautifully written and insightful memoir of what it feels like to live with Complex Post Traumatic Stress Disorder and Quiet Borderline Personality Disorder of confronting our deepest fears and in doing so finding redemption and coming home to our true self

Navigating Through Trauma Dr Anna Dos Santos, 2025-02-25 Trauma is knitted into the fabric of our human existence and Christians are not exempt from it This book is meant for Bible believing people who have experienced trauma and want to understand more about the chaos it leaves in its wake More than that they also want to address their emotional pain in a biblically sound and responsible way The book is also for counsellors and pastors who must help believers who have suffered trauma Research has shown that reflective artmaking is one of the most effective ways to process trauma In the last chapters of the book readers will get the opportunity to process their trauma wounding with creative artmaking reflections derived from principles taken from the story of Creation The same story God told Job after he suffered severe loss and trauma

The Sacred Path Beyond Trauma Ellen Macfarland, Ph.D., 2008-06-03 One of Graham Greene's characters famously said I suffer therefore I am suggesting that pain is an inescapable and perhaps incurable part of the human condition But must this be so Ellen Macfarland argues otherwise in **The Sacred Beyond Trauma** Through the use of mythology stories from film and fiction real life examples and her personal history Macfarland shows that healing trauma is indeed possible using rich resources near at hand in nature The book explores major symbols of healing nature that can provide an impetus for personal transformation One of the case studies profiles Monty Roberts a well known horse trainer who overcame significant childhood abuse by working with horses and eventually fostering some forty children alongside his own biological family The key says Macfarland is using these and other natural symbols such as yin yang to balance the tension between trauma and numinosity sacredness transcendence resulting in the creation of a new way of being in the world Understanding this and the book's

other nature based symbols can turn the distressed mind into a fertile field of spiritual awareness empowerment and lifelong growth

The Nature of Trauma in American Novels Michelle Balaev, 2012-06-11 This book examines literary trauma theory from its foundations to its implementations and new possibilities A n analysis that reconsiders the meaning and value of traumatic experience by demonstrating the diversity of its forms in contemporary American novels in an effort to deepen the discussion of trauma beyond that of the disease driven paradigm in literary criticism today The author s model views trauma and the process of remembering within a framework that emphasizes the multiplicity of responses to an extreme experience and the importance of contextual factors in determining the significance of the event In order to demonstrate this new approach she focuses her discussion on late modern canonical and emergent American novels that deal with trauma In analyzing the narrative methods authors employ to portray suffering she found two major patterns the use of landscape imagery to convey the effects of trauma and remembering and the use of place as a site that shapes the protagonist s experience and perception of the world
