About

Society

www.Engdic.org

Behind each smile, a story untold,
We follow the script that we've been sold.

"Be like this," society said,
Wear your mask; don't turn your head.

Don't let them see the tears you weep,
Lock your secrets where they're cheap.

Smile wide, even if it's fake,
Play the part, for heaven's sake.

Yet, underneath the guise we wear,
Exists a soul that deeply cares.

Can we ever hope to be
Unmasked, genuine, and free?

They Also Write for Kids Suzanne Manizza Roszak, 2022-12-28 Outside the world of children s literature studies children s books by authors of well known texts for adults are often forgotten or marginalized Although many adults today read contemporary children s and young adult fiction for pleasure others continue to see such texts as unsuitable for older audiences and they are unlikely to cross read children s books that were themselves cross written by authors like Chinua Achebe Anita Desai Joy Harjo or Amy Tan Meanwhile these literary voices have produced politically vital works of children s literature whose complex themes persist across boundaries of expected audience These works form part of a larger body of activist writing for children that has long challenged preconceived notions about the seriousness of such books and ideas about who in fact should read them They Also Write for Kids Cross Writing Activism and Children s Literature seeks to draw these cross writing projects together and bring them to the attention of readers In doing so this book invites readers to place children s literature in conversation with works more typically understood as being for adult audiences read multiethnic US literature alongside texts by global writers consider children s poetry and nonfiction as well as fiction and read diachronically as well as cross culturally These ways of reading offer points of entry into a world of books that refuse to exclude young audiences in scrutinizing topics that range from US settler colonialism and linguistic prejudice to intersectional forms of gender inequality The authors included here also employ an intricate array of writing strategies that challenge lingering stereotypes of children s literature as artistically as well as intellectually simplistic They subversively repurpose tropes and conventions from canonical children s books embrace an epistemology of children s literature that emphasizes ambiguity and complexity invite readers to participate in redefining

concepts such as civilization and cultural belonging engage in intricate acts of cross cultural representation and re envision their own earlier works in new forms tailored explicitly to younger audiences Too often disregarded by skeptical adults these texts offer rich rewards to readers of all ages and here they are brought to the fore *German Children's and Youth Literature in Exile 1933-1950* Zlata Fuss Phillips,2011-11-02 No detailed description available for German Children s and Youth Literature in Exile 1933 1950 *The Lever of Riches* Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity *The Lever of Riches* with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential **The Concise Oxford Companion to African American Literature** William L. Andrews,Frances Smith Foster,Trudier Harris,2001-02-15 A breathtaking achievement this Concise Companion is a suitable crown to the astonishing production in African American literature and criticism that has swept over American literary studies in the last two decades It offers an enormous range of writers from Sojourner Truth to Frederick Douglass from Zora Neale Hurston to Ralph Ellison and from Toni Morrison to August Wilson It contains entries on major works including synopses of novels such as Harriet Jacobs s *Incidents in the Life of a Slave Girl* Richard Wright s *Native Son* and

Icons of black culture are addressed including vivid details about the lives of Muhammad Ali, John Coltrane, Marcus Garvey, Jackie Robinson, John Brown, and Harriet Tubman. Reality Poems Isabella George, 2016-09-06 *Reality Poems 2016* is the revised edition of Isabella George's first book *Reality Poems of the Modern Day 2014*. The title has been shortened but content increased. In this revision, the poems are presented as more intense in depth and reveal an enriched, ever-evolving awareness and determination to address issues more explicitly without trepidation or regard to criticism. *Reality Poems* is a body of work that is now a collection of 70 short stories and poems of controversial issues relevant to modern culture. Each poem is a short story that creates mood and movement in a rhythmic, lyrical, contempo cadence aptly called *Versery Rhymes*; some poems are written in an urban vernacular. Many stories in the collection of political and social issues are not usually topics of discourse in traditional poetry. These stories in atomic words are a clear and concise commentary on controversial issues not usually considered to be poetic. A range of poignant topics in the collection includes credit card entrapment, drug trafficking, interracial lovers, 9/11 conspiracy, and other theories, the horrors of factory farming, death row, psychotic episodes, cigarette smoking, Lucifer, Prince of the Air, strippers, the blues, ghosts, Frankenfood, baptism, the death of one's mother, civil rights struggle of the 60s, sea level rise, Miami, and the Everglades, smoking weed, imagining the New World Order, aging cougars.
