Conversation with a bull?

So I started off just messaging with a guy on here and eventually passed my wife's info... things have since escalated. I get the feeling he wants to chat here so this will become a bit of a conversation that you all get to witness. He has asked me not to message him directly... I believe that he is video chatting with her right now. And I think he has seen alot. Feel free to look at some of my other posts to see what I've been going through in life.

Chivalry Is On Life Support, Chapter Eighteen

I didn't keep careful track, but looking back over the last three years, I would say that Luke slept in the same bed as Brooke about 70% of the time on average. Of that 70%, two thirds of the time was spent at our house in town and one third at Luke's, especially during the summers so we could spend time in his huge back yard and large inground pool. My favorite times, of course, were the 30% when he was not around, as back in the early days of our marriage. These were when Luke was traveling on business (courting out potential...

How I realized I was a cuck (part 2)

I received a lot of positive messages from my first story and a lot of you also wanted more so here we go. If you don't already know I'll be talking about my ex Erin, an extremely petite girl with all of the most perfect features you can imagine. This was always a strange thought to me because they seemed very good for each other and I que...

combat the imminent threat of on demand streaming video Barker examines the rise and fall of Social TV across press coverage corporate documents and an array of digital ephemera He demonstrates that despite the talk of disruption the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy Case studies from broadcast networks to tech start ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period To trace these unfulfilled promises and flopped ideas Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing Yet in placing this now forgotten material in recent historical context Social TV shows how the era altered how the industry pursues audiences Multi screen campaigns have shifted away from a focus on live TV and toward all day content streams The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life

This book analyzes how the Iraqi city of Fallujah became registered as a setting for military heroics in American memory In 2004 the U S military conducted two disastrous assaults in Fallujah Iraq More than 1 000 citizens were killed and according to the military s own estimate upwards of 200 000 people were displaced because of the violence Yet despite this human catastrophe the kind of information that emerged in the public domain during the battle foregrounded the soldier s experience in war while effacing the destruction of Iraqi bodies This tendency to foreground the soldier body is a direct result of the military s intervention in what they conceptualize as the information environment This book draws from the second assault in Fallujah as a case study to explicate the military s investment in this perspectival space which is a consequence both of the mediatization of contemporary war and of the need to influence knowledge considered unfavorable to military operations In short the military enlists the media in their targeting process to produce information that is then deployed as persuasive force to modify the beliefs of specific target populations When the cultural texts produced by the media are remediated in the public domain after war they can be thought of as martial constructs because they originated during war through the military s systemized attempt to influence knowledge That is these texts trace to a specific battlefield objective This book reframes the notion of propaganda as a generalized public relations strategy into a more acute and coordinated attempt to decontextualize specific knowledge in the information environment This book will be of much interest to students of media and communication studies war studies memory studies and international relations **Rails: Novice**
