Cli-Fi and Class Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth's ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn *Teaching the Literature of Climate Change* Debra J. Rosenthal, 2024-04-26 Over the past several decades writers such as Margaret Atwood Paolo Bacigalupi Octavia E Butler and Kathy Acker have explored climate change through literature reflecting current anxieties about humans impact on the planet Emphasizing the importance of interdisciplinarity this volume embraces literature as a means to cultivate students understanding of the ongoing climate crisis ethics in times of disaster and the intrinsic intersectionality of environmental issues Contributors discuss speculative climate futures the Anthropocene postcolonialism climate anxiety and the usefulness of storytelling in engaging with catastrophe The essays offer approaches to teaching interdisciplinary and cross listed courses including strategies for team teaching across disciplines and for building connections between humanities majors and STEM majors The volume concludes with essays that explore ways to address grief and to contemplate a hopeful future in the face of apocalyptic predictions The Routledge Companion to Gender and Science Fiction Lisa Yaszek, Sonja Fritzsche, Keren Omry, Wendy Gay Pearson, 2023-02-10 The Routledge Companion to Gender and Science Fiction is the first large scale reference work of its kind critically assessing the relations of gender and genre in science fiction SF especially but not exclusively as explored in speculative art by women and LGBTQ artists across the world This global volume builds upon the traditions of interdisciplinary inquiry by connecting established topics in gender studies and science fiction studies with emergent ideas from researchers in different media Taken together they challenge conventional generic boundaries provide new ways of approaching familiar texts recover lost artists and introduce new ones connect the revival of old hate based politics with the increasing visibility of imagined futures for all and show how SF stories about new kinds of gender relations inspire new models of artistic technoscientific and political practice Their chapters are grouped into five conversations about the history of gender and genre theoretical frameworks subjectivities medias and transmedialities and transtemporalities that are central to discussions of gender and SF in the current moment A range of both emerging and established names in media literature and cultural studies engage with a huge

diversity of topics including eco criticism animal studies cyborg and posthumanist theory masculinity critical race studies Indigenous futurisms Black girlhood and gaming This is an essential resource for students and scholars studying gender sexuality and or science fiction

Reimagining Science Fiction Gary Westfahl, 2025-10-31 In the first decades of the twenty first century science fiction literature has been transformed in many ways as the genre has reacted to the dominating influence of films television and video games the growing popularity of fantasy the rise of young adult science fiction and graphic novels the impact of the internet and social media and the increasing diversity of the authors characters and often non Western settings The essays making up this volume address these and other changes in two ways Some consider new critical approaches to science fiction in response to changing circumstances including analyses of how evolutionary psychology explains today s science fiction the emerging subgenre of cli fi exploring the effects of climate change the use of science fiction in different areas of the college curriculum and a statistical method for identifying works of science fiction Others examine significant new authors such as Nalo Hopkinson Charles Stross Paolo Bacigalupi Suzanne Collins Mira Grant John Sandford and David Mura Contributors include science fiction author Howard V Hendrix and experts in the fields of Chinese studies gender studies literature philosophy and religion

Research Handbook on Communicating Climate Change David C. Holmes, Lucy M. Richardson, 2020-12-25 Drawing together key frameworks and disciplines that illuminate the importance of communication around climate change this Research Handbook offers a vital knowledge base to address the urgency of conveying climate issues to a variety of audiences

Climate Fiction and Cultural Analysis Gregers Andersen, 2019-09-25 Climate Fiction and Cultural Analysis argues that the popularity of the term climate fiction has paradoxically exhausted the term s descriptive power and that it has developed into a black box containing all kinds of fictions which depict climatic events and has consequently lost its true significance Aware of the prospect of ecological collapse as well as our apparent inability to avert it we face geophysical changes of drastic proportions that severely challenge our ability to imagine the consequences This book argues that this crisis of imagination can be partly relieved by climate fiction which may help us comprehend the potential impact of the crisis we are facing Strictly assigning climate fiction to fictions that incorporate the climatological paradigm of anthropogenic global warming into their plots this book sets out to salvage the term s speculative quality It argues that climate fiction should be regarded as no less than a vital supplement to climate science because climate fiction makes visible and conceivable future modes of existence within worlds not only deemed likely by science but which are scientifically anticipated Focusing primarily on English and German language fictions Climate Fiction and Cultural Analysis shows how Western climate fiction sketches various affective and cognitive relations to the world in its utilization of a small number of recurring imaginaries or imagination forms This book will be of great interest to students and scholars of ecocriticism the environmental humanities and literary and culture studies more generally

Science Fiction Demographics Ethan Rodriguez, AI, 2025-02-19 Science Fiction Demographics

explores the readership of science fiction revealing how this informs our understanding of cultural and economic trends The book highlights the genre's substantial market growth noting its evolution from a niche interest to a mainstream phenomenon Interestingly shifts in science fiction readership often mirror broader societal changes acting as a potential bellwether for emerging cultural values and technological adoption For example increased readership among specific demographics might correlate with growing interest in related technologies or social issues The book adopts a data driven approach using industry surveys and market research to analyze readership patterns It examines specific demographic groups their preferences and purchasing habits further exploring the impact of digital platforms on readership including e books and online communities This allows publishers marketers and content creators to develop targeted strategies The book progresses logically introducing core concepts analyzing specific demographics and discussing implications for various stakeholders making it a valuable resource for understanding the dynamic relationship between science fiction and society

The Crossroads of Crime Writing Meghan P. Nolan, Rebecca Martin, 2024-03-05 This volume argues that we must examine the boundaries in fiction and non fiction crime writing with an awareness of and turn toward the unseen structures and spatial uncertainties that so often lead to and reflect collective fears and anxieties Drawing upon the insights and expertise of an international array of scholars the chapters within explore the interplay of the literary historical social and cultural in various modes of crime writing from the 1890s to as recent as 2017 They examine unseen structures and uncertain spaces and simultaneously provide new insights into the works of iconic authors such as Christie and iconic fictional figures like Holmes as well as underexplored subjects including Ukrainian detective fiction of the Soviet period and crime writing by a Bengali police detective at the turn of the twentieth century The breadth of coverage of both time and place is an indicator of a text in which seasoned readers advanced students and academics will find new perspectives on crime writing employing theories of cultural memory and deep mapping

Teaching Climate Change to Adolescents Richard Beach, Jeff Share, Allen Webb, 2017-05-25 THE essential resource for middle and high school English language arts teachers to help their students understand and address the urgent issues and challenges facing life on Earth today this text features classroom activities written and used by teachers and a website <http://climatechangeela.pbworks.com> with additional information and links All royalties from the sale of this book are donated to Alliance for Climate Education <https://acespace.org>

Science and Religion in Western Literature Michael Fuller, 2022-08-16 This book explores ways in which Western literature has engaged with themes found within the field of science and religion both historically and in the present day It focuses on works of the imagination as important locations at which human arguments hopes and fears may be played out The chapters examine a variety of instances where scientific and religious ideas are engaged by novelists poets and dramatists casting new light upon those ideas and suggesting constructive ways in which science and religion may interact The contributors cover a rich variety of authors including Mary Shelley Aldous Huxley R S Thomas Philip Pullman and

Margaret Atwood Together they form a fascinating set of reflections on some of the significant issues encountered within the discourse of science and religion indicating ways in which the insights of creative artists can make a valuable and important contribution to that discourse
