With Regrets Lee Kelly, 2023-09-05 *With Regrets* from author Lee Kelly is equal parts *Big Little Lies* and *Bird Box* a suburban drama wrapped in a 24 hour survival story at the end of the world perfect for fans of David Koepp's *Aurora Seven*

courses seven guests twenty four hours that will obliterate everything When recent NYC transplant Liz Brinkley and her husband are invited to an exclusive soiree by their neighbor lifestyle guru Britta Harris Che Liz s immediate thought is hell no Britta is insufferable and Liz is wary to leave her young children with a barely teenage babysitter And yet she RSVPs anyway trying to extend an olive branch to her withdrawing husband who seems desperate to get in with the cliquy elite They ve barely made it through their first round of champagne when a red alert comes through their phones and every channel on the television tells the same story strange atmospheric masses reported to look like glimmering clouds have been spreading through major U S cities and killing anyone they touch Authorities have just one clear directive Find shelter Immediately A collective panic seizes the dinner party all the guests have children at home In the mad dash to their cars they see it a shimmering net floating over the town The street is littered with wrecked cars and dead bodies Leaving now is not an option Instead the group launches into survival mode grabbing supplies to take shelter in the hosts wine cellar But everyone has very different opinions about the best plan from there Liz becomes increasingly willing to do anything it takes to get back to her children As the glimmering clouds continue to kill anyone who steps outside the tensions and suspicions among the party guests near a boiling point But she begins to realize that there may be others in that cellar even more desperate than she is

From Iceland to the Americas Tim William Machan, Jón Karl Helgason, 2020-04-07 This volume investigates the reception of a small historical fact with wide ranging social cultural and imaginative consequences Inspired by Leif Eiriksson's visit to Vinland in about the year 1000 novels poetry history politics arts and crafts comics films and video games have all come to reflect rising interest in the medieval Norse and their North American presence Uniquely in reception studies *From Iceland to the Americas* approaches this dynamic between Nordic history and its reception by bringing together international authorities on mythology language film and cultural studies as well as on the literature that has dominated critical reception Collectively the chapters not only explore the connections among medieval Iceland and the modern Americas but also probe why medieval contact has become a modern cultural touchstone *Just Eat* Barry Estabrook, 2021-02-02 The New York Times bestselling author of *Tomatoland* test drives the most popular diets of our time investigating the diet gurus contradictory advice and science behind the programs to reveal how we should and shouldn't be dieting Essential reading This will completely change your ideas about what you should be eating Ruth Reichl author of *Save Me the Plums* Investigative journalist Barry Estabrook was often on the receiving end of his doctor's scowl Realizing he had two options take more medication or lose weight Estabrook chose the latter but was paralyzed by the options Which diet would keep the weight off What program could he maintain over time What diet works best or even at all Over the course of three years Estabrook tried the regimens behind the most popular diets of the past forty years from paleo keto gluten free and veganism to the Master Cleanse Whole30 Atkins Weight Watchers examining the people claims and science behind the fads all while recording his mental and physical experience of following each one Along the way he discovered that all the branded programs are derived from just three diets There are effective scientifically valid takeaways to be cherry picked and the rest is just marketing Perhaps most alarming Estabrook uncovered how short term weight loss can do long term health damage

that may go undetected for years Estabrook contextualizes his reporting with an analysis of our culture's bizarre dieting history dating back to the late 1800s to create a thorough and thoroughly entertaining look at what specific diets do to our bodies why some are more effective than others and why our relationship with food is so fraught Estabrook's account is a relatable pragmatic look into the ways we try to improve our health through dieting revealing the answer may be to just eat
