Kindergarten and the Common Core Kathy Brown, Sarah Martino, 2014-02-10 How do we teach with rigor to our youngest learners? How do we implement standards that spell out quite clearly what students must know but do not give us either the methods or materials that help our students achieve such skills? This professional resource provides practical routines and developmentally appropriate activities that foster an environment where our youngest learners can thrive in mastering core kindergarten content along with the Common Core standards. The routines and activities in this book have been thoroughly classroom tested and aligned with best practices. The authors show you how to create a magical kindergarten environment that creates a community of confident learners full of excitement and enthusiasm.

Understanding the Language Development and Early Education of Hispanic Children Eugene E. Garcia, Erminda Garcia, 2012 Young Hispanic children are the largest and fastest growing ethnic minority population in the United States, representing diverse racial, linguistic, and cultural backgrounds. Educational skills and achievement lag significantly for this population, creating an unacceptable achievement gap at the beginning of Kindergarten that grows even further by the end of 3rd grade. What can we learn from the empirical literature, theory, programs, and policies associated with language and early learning for young Hispanics? What are the home and school factors important to differences in early cognitive development and educational well-being? In this timely collaboration, a renowned researcher and a seasoned practitioner explore these questions with a focus on specific instructional interventions that are associated with reducing the achievement gap for young Hispanic children. Chapters emphasize educational practices including teacher competencies, instructional strategies, curricular content, parent involvement, and related policy. The text includes teacher-friendly artifacts, instructional organizers, and lesson descriptions. The authors provide the combination of theoretical orientation, background knowledge, and practical experience that is needed to do justice to this topic. Nancy Commins, University of Colorado Denver, fills a void in current research and will spark vital policy discussions. Patricia G. Ndara, Co-Director of The Civil Rights Project, UCLA.
