The Challenge of Pluralism Stephen V. Monsma, J. Christopher Soper, 2009 Provides a comparative analysis of church state issues in the United States the Netherlands Australia England and Germany and argues that the U S is unique in the way it resolves religious freedom and religious establishment questions *Religion in the Public Sphere: A Comparative Analysis of German, Israeli, American and International Law* Winfried Brugger, Michael Karayanni, 2007-08-10 How closely connected should church and state be May a state endorse the role and meaning of religion at all Can it treat distinct religious groups differently This book addresses these questions and more through a portrayal and comparison of the legal systems of Germany Israel France and the United States This thought provoking book brings the often opposing demands of religious and secular freedoms into clear focus Church and State in Contemporary Europe Zolt Enyedi, John T.S. Madeley, 2004-08-02 This volume represents an attempt in integrating a wide range of theoretically relevant issues into the identification and analysis of church state patterns Each chapter focuses on the analysis of a particular theme and its role in shaping and or being shaped by church state relations *Church, State, and Democracy in Expanding Europe* Lavinia Stan, Lucian Turcescu, 2011-09-22 Lavinia Stan and Lucian Turcescu examine the relationship between religion and politics in ten former communist Eastern European countries showing church state relations in the new EU member states through study of political representation for church leaders governmental subsidies registration of religions by the state and religious instruction in public schools The Challenge of Religious Discrimination at the Dawn of the New Millennium Nazila Ghanea, 2004-02-01 The themes and issues explored in this book religion human rights politics and society could not be more relevant to the post 11 September 2001 world They lie at the heart of global political debate today The collection explores these issues after the passing of just over two decades from the adoption of the United Nations Declaration on the Elimination of all Forms of Intolerance and Discrimination based on Religion or Belief That declaration set out minimum international standards for the elimination of such discrimination Sadly the challenge of intolerance on the basis of religion or belief continues to plague us and tackling it seems to have become increasingly entrenched The complexity of this phenomenon requires expertise from different quarters This collection draws from diplomatic activist and theological quarters and benefits from the analysis of scholars of law history religious studies and sociology The ten chapters of this collection examine the relationship between human rights law and religion offer a typology for the study of religious persecution problematise the consequences flowing from religious establishment in religiously plural society analyse the implications of the directions being taken by the jurisprudence of the European Court of Human Rights and the protections offered by the European Commission council Directive 2000 43 EC outlawing workplace discrimination study the 1981 Declaration and its promotion through the work of the UN Special Rapporteur on Freedom of Religion or Belief and explore the intricacies of this freedom in detail from within the context of the United Kingdom and The Netherlands **Ibss:**

Immigration, Integration, and Security Ariane Chebel D'Appollonia, Simon Reich, 2008-05-01 Recent acts of terrorism in Britain and Europe and the events of 9 11 in the United States have greatly influenced immigration security and integration policies in these countries Yet many of the current practices surrounding these issues were developed decades ago and are ill suited to the dynamics of today's global economies and immigration patterns At the core of much policy debate is the inherent paradox whereby immigrant populations are frequently perceived as posing a potential security threat yet bolster economies by providing an inexpensive workforce Strict attention to border controls and immigration quotas has diverted focus away from perhaps the most significant dilemma the integration of existing immigrant groups Often restricted in their civil and political rights and targets of xenophobia racial profiling and discrimination immigrants are unable or unwilling to integrate into the population These factors breed distrust disenfranchisement and hatred factors that potentially engender radicalization and can even threaten internal security The contributors compare policies on these issues at three relational levels between individual EU nations and the U S between the EU and U S and among EU nations What emerges is a timely and critical examination of the variations and contradictions in policy at each level of interaction and how different agencies and different nations often work in opposition to each other with self defeating results While the contributors differ on courses of action they offer fresh perspectives some examining significant case studies and laying the groundwork for future debate on these crucial issues

Secular and Sacred? Rosemarie van den Breemer, Jose Casanova, Trygve Wyller, 2013-12-11 Shaped by five hundred years of Lutheran impact and with a strong influence of big majority churches Scandinavian secularity is a very interesting and fruitful material for the historical and contemporary theoretical debate on the secular It can be discussed for example whether the strong position of Human Rights and of the Scandinavian welfare state might be interpreted in continuity with the historical influence of Protestant traditions Is there something like a hidden sacrality implicit in the Scandinavian secular
