The book also explains the impact of different nutrients such as herbal products, algae, micronutrients in stimulating the brain and central nervous system during abnormal functions. It covers the effect of the nutrients on the function of neurotransmitters, their stimulatory effect in autism, dementia, Alzheimer's, and other neuropathological states. The book also defines the mechanistic effects of neuroprotective and psychoprotective effects of natural food in repairing brain damage. This book is essential reading for neuroscientists and neurologists and healthcare professionals. **Nutritional Ergogenic Aids** Ira Wolinsky, Judy A. Driskell, 2004-06-25

Nutritional Ergogenic Aids provides an up to date review of what is hypothetical and what is known about the most extensively used nutritional ergogenic aids, dietary supplements to enhance physical and athletic performance. Among the 23 aids discussed are branched chain amino acids, carnitine, creatine, glucosamine, chondroitin sulfate, and taurine. An up to date review about what is hypothetical and what is known about the most extensively used ergogenic aids. Nutrition and Exercise Concerns of Middle Age Judy A. Driskell, 2009-03-10 Many health professionals today seem to approach sports nutrition and physical activity recommendations with a one size fits all approach. Surprisingly little consideration goes into addressing the changing needs of athletes as they progress in age. Nutrition and Exercise Concerns of Middle Age addresses

the specific nutritional and physical activity needs of active individuals thirty to sixty years old. Judy A. Driskell, one of the world's leading experts in the field of sports nutrition, brings together cutting edge research on the nutritional needs and exercise recommendations for this quickly growing age group. Internationally acclaimed experts on nutrition and kinesiology unveil their research in sports nutrition, endurance and strength training, age related disorders, and nutrition and exercise recommendations of health organizations. They also explore the role of diet and physical activity in reducing the risk of and in treating age related diseases such as cancer and cardiovascular disease. *Nutrition and Exercise Concerns of Middle Age* is a valuable resource for nutritionists, physicians, dietitians, and researchers looking to access authoritative information on exercise and sports nutrition recommendations for middle age adults.
