

Starburst Bracelet

This bracelet will really put your looping skills to work! First learn to make the bracelet by making the Multicolor Star variation, because it will be a lot easier to keep track of what you're doing with the different colors. Once you've got the hang of it, you can try making all sorts of cool patterns!

Load It Up!

Loading this loom is pretty easy. Place a starting band at the bottom, load up the left column, then load up the right column. Then, create the starbursts with six bands each. Make sure you go in exactly the order shown. The last step is to add one double-looped band to the single peg in the center of each of the starbursts; then add one to the top middle peg as well (Steps 4 to 8). There's nothing tricky about this (just loop the band over the peg and then loop it on again, as if you're tying your shoelaces with a chain stitch).

Get Loopin'

1 Turn the loom so the arrow faces down. Push your hook down into the groove of the bottom middle peg, and hook the first band beneath the double-looped band in the bracelet (a purple loop the band to the peg directly above it).

2 Next, push your hook down into the groove of the center of the first starburst. Hook the band that is stretched from the center of the starburst down to the right. In this bracelet, it's turquoise (while now you push your hook down through the white double-looped band).

3 Loop the band you hooked to the peg on the bottom right; the peg it came from. The first band is the hardest to get right in each starburst.

4 Push your hook into the groove of the center peg of the starburst and hook the next band down, which is the one that is stretched from the center of the starburst up to the right. Loop it to the peg in the upper right.

Secure it this end!
