How and Why to Read and Create Children's Digital Books Natalia Kucirkova,2018-12-03 How and Why to Read and Create Children s Digital Books outlines effective ways of using digital books in early years and primary classrooms and specifies the educational potential of using digital books and apps in physical spaces and virtual communities With a particular focus on apps and personalised reading Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co created by reading communities Divided into two parts Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom Specific attention is paid to the ways in which digital books can support

individual children's strengths and difficulties digital literacies language and communication skills Part II explores digital books created by children their caregivers teachers and librarians and Kucirkova also offers insights into how smart toys tangibles and augmented virtual reality tools can enrich children's reading for pleasure How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers as well as designers librarians and publishers All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing Praise for How and Why to Read and Create Children's Digital Books This is an exciting and innovative book not least because it is freely available to read online but because its origins are in primary practice The author is an accomplished storyteller and whether you know as yet little about the value of digital literacy in the storymaking process or you are an accomplished digital player this book is full of evidence informed ideas explanations and inspiration Liz Chamberlain Open University At a time when children's reading is increasingly on screen many teachers parents and carers are seeking practical straightforward guidance on how to support children's engagement with digital books This volume written by the leading expert on personalised e books is packed with app reviews suggestions and insights from recent international research all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice Providing accessible guidance on finding choosing sharing and creating digital books it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age Cathy Burnett Professor of Literacy and Education Sheffield Hallam University

Teaching Beginner ELLs Using Picture Books Ana Lado, 2012-09-12 Picture your beginning ELLs reading their way to success For beginning English language learners a picture really is worth a thousand words Picture books can unlock puzzling cultural and social meanings for students at all ages and grade levels ELL educator Ana Lado illustrates how picture books are an especially useful tool for building important language and social foundations foundations that students may miss through traditional instruction Lado provides all the tools you need to engage your English learners with picture books including how to Design lesson plans around themed units Select appropriate picture books using specific criteria Incorporate fun and engaging strategies like singing and reenacting Integrate picture book learning to facilitate development of English Language Proficiency In addition you will gain access to a searchable online database to find just the right book for your lessons based on author title genre and English Language Proficiency level With practical classroom friendly techniques Teaching Beginner ELLs Using Picture Books helps teachers ESL ELD specialists and bilingual teachers transform lessons into richly illustrated learning opportunities This book is a great tool to use when teaching level one students and contains the different strategies necessary for complete English instruction Giuliana Jahnsen ELL Teacher Sterling Middle School Sterling VA This book makes the TESOL standards accessible by summarizing the three main goals of learning a language and how picture books support these concepts Blanca L Campillo Professional Development Specialist Chicago Public Schools Area 9 Chicago IL

How to Write and Publish a Successful Children's Book Cynthia Reeser, Cynthia Resser, 2010 Children's books are very special and have introduced millions of young people to the joys of reading. Single mums and top celebrities alike have penned best sellers promoting the virtues and values for children to lead happy healthy lives. There are many different ways that a children's book can be written from the simplest rhyming picture books to more involved novella stories. Whatever your story may be publishing it is within your grasp. The book provides a complete overview of everything a prospective children's writer needs to complete and publish his or her own children's book. You will start by learning how to recognise the market that your book's style fits. You will learn the basics of the children's book publishing industry and how it is fundamentally different from that of the rest of the publishing industry. You will learn how to choose the right publisher or print on demand printer for your book and how to start preparing the package with special consideration for illustrations and other aspects of your book that might change the overall presentation. You will learn what morals and values publishers and readers look for in good children's books and what you should expect in a publication deal. You will learn how to build a relationship with your editor, what to expect in revisions and how to learn the process of selling your book. You will learn how to gain publicity on your own and what you can do to build your book into a long term career. For anyone that has ever written or is considering writing their own children's book this book will provide the information and resources you need to get published.

Crossing Textual Boundaries in International Children's Literature Lance Weldy, 2011-01-18 As the first part of the title indicates my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well. If we believe that no text is an island then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry. I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium. Not only am I interested in discussing what these changes across boundaries mean socially, historically and culturally but also what they mean geographically which accounts for the second part of my title. I am very excited that this book will be placing even more emphasis on children's literature in an international scene than my first book did in the sense that I have added more scholars on an international level. I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways by either studying abroad or finding permanent residency in foreign countries. Nevertheless the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America and Wales.

Introduction

Enjoying the Track of Term: An Psychological Symphony within **Picture Book Toddlers Step By Step**

In a world taken by displays and the ceaseless chatter of instant conversation, the melodic elegance and emotional symphony developed by the prepared term often diminish into the background, eclipsed by the persistent sound and distractions that permeate our lives. However, set within the pages of **Picture Book Toddlers Step By Step** a marvelous literary value overflowing with raw thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, that captivating masterpiece conducts viewers on a psychological trip, well unraveling the concealed melodies and profound affect resonating within each carefully constructed phrase. Within the depths of this poignant review, we shall examine the book is central harmonies, analyze their enthralling writing design, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
