Halfway to Better (Short Story Collection) Susan Kaye Quinn, 2024-04-22 Halfway to Better is a collection of short solarpunk stories each exploring a near future where we're struggling to survive the climate crisis and build a better world. These hopeful climate fiction stories take you from the bottom of the sea to the towers of a bot-filled city from sparkling labs to flooded lighthouses all imagining futures halfway to a better world. The Halfway to Better collection contains six short stories plus a bonus prose poem Rewilding Indiana and its accompanying sky shanty. If you enjoyed the optimistic climate solutions in Kim Stanley Robinson's Ministry for the Future or the cozy cooperative future in Becky Chambers' Monk and Robot series you will enjoy Halfway to Better. 1 Slimy Things Did Crawl 2 Tower Girls 3 Planting the Shell Bones 4 Tombs Without Bodies 5 The Day We Stopped Burning 6 I Came Home From Saving the Rainforest Politeness in Online Communication Murni Mahmud, Muftihaturrahmah Burhamzah, Ananta Vidya, In the fast-paced digitally connected world of today communication is more vital than ever before. Human interaction be it face to face or through digital platforms is essential for sharing ideas, knowledge, and emotions. As communication continues to evolve understanding the subtleties of effective communication becomes increasingly crucial. This book delves into the theory and practice of politeness in the realm of digital communication focusing on how politeness is expressed and interpreted in platforms like WhatsApp, YouTube, and TikTok. Drawing on rich theories from scholars and a deep exploration of various studies this work offers a comprehensive overview of how digital communication shapes and redefines traditional norms of politeness. Across four chapters the authors investigate the role of politeness in student-teacher interactions, online videos, and social media platforms providing critical insights that are relevant not only for discourse analysis but also for daily communication in the digital age. A must-read for students and researchers alike this book serves as an invaluable resource for anyone interested in the intersections of language, culture, and digital communication. **Swarms, Viral Writing, and the Local** Carl Whithaus, 2025-04-15 Swarms, Viral Writing, and the Local examines the social and rhetorical dynamics around emerging writing technologies. Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts. This rhetorical analysis of the production and reception of born-digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy. It is a networked process that gains significance because of the interplay and tensions between the global and the local. As these texts are created, distributed, received, and then recreated and shared again in viral ways different messages resonate across media ecologies. Whithaus documents how emerging social dynamics shape and are shaped by digital writing, reading, and distribution technologies. *Contemporary Drivers of Economic Behavior and Digital Transformation* Ali Shah, Syed Quaid, Azhar Ali, Syed Emad, 2025-09-04 In today's interconnected world economic behavior is increasingly shaped by technological innovation, societal shifts, and global market dynamics.
