

A movie poster for 'Alien Invasion'. The top half features a large, dark, metallic alien head with a ribbed texture, its mouth open as if screaming. Below it, a man with long brown hair is shown from the chest up, his face contorted in a scream with his hands covering his ears. The background is a misty, forested landscape. The text 'WE DO NOT COME IN PEACE' is in the top right, and 'ALIEN INVASION' is at the bottom in large, glowing green letters.

A must for every reader's advisory desk, this resource is also a useful tool for collection development librarians and students in LIS programs. It includes everything advisors need to get up to speed on a genre, including its appeal, characteristics, key authors, sure bets, and trends. It demonstrates how genres overlap and connect, plus suggestions for guiding readers among genres and tie genre fiction to the whole collection, including nonfiction, audiobooks, graphic novels, film, and TV, poetry, and games. Both insightful and comprehensive, this matchless guidebook will help librarians become familiar with many different fiction genres, especially those they do not regularly read, and aid library staff in connecting readers to books they're sure to love.

Science Fiction: A Guide for the Perplexed Sherryl Vint, 2014-03-13 From its beginnings in the works of H. G. Wells and Jules Verne to the virtual worlds of William Gibson's *Neuromancer* and *The Matrix*, Science Fiction: A Guide to the Perplexed helps students navigate the often perplexing worlds of a perennially popular genre. Drawing on literature as well as example from film and television, the book explores the different answers that criticism has offered to the vexed question: what is science fiction? Each chapter of the book includes case studies of key texts, annotated guides to further reading, and suggestions for class discussion to help students master the full range of contemporary critical approaches to the field, including the scientific, technological, and political contexts in which the genre has flourished. Ranging from an understanding of the genre through the stereotypes of 1930s pulps through more recent claims that we are living in a science fictional moment, this volume will provide a comprehensive overview of this diverse and fascinating genre.

The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film Michael C. Frank, 2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction, arguing that both are informed by and contribute to the cultural imaginary of terrorism. Whenever mass-mediated acts of terrorism occur, they tend to trigger a proliferation of threat scenarios, not only in the realm of literature and film but also in the statements of policymakers, security experts, and journalists. In the process, the discursive boundary between the factual and the speculative can become difficult to discern. To elucidate this phenomenon, this book proposes that terror is a halfway house between the real and the imaginary. For what characterizes terrorism is less the single act of violence than it is the fact

that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies

Science Fiction Film Keith M. Johnston, 2013-05-09 *Science Fiction Film* develops a historical and cultural approach to the genre that moves beyond close readings of iconography and formal conventions It explores how this increasingly influential genre has been constructed from disparate elements into a hybrid genre *Science Fiction Film* goes beyond a textual exploration of these films to place them within a larger network of influences that includes studio politics and promotional discourses The book also challenges the perceived limits of the genre it includes a wide range of films from canonical SF such as *Le voyage dans la lune* *Star Wars* and *Blade Runner* to films that stretch and reshape the definition of the genre This expansion of generic focus offers an innovative approach for students and fans of science fiction alike
