Step Up To Obstetrics And Gynecology:

Step-Up to Obstetrics and Gynecology Nancy Dent, 2014 Step Up to Ob Gyn is a primary review tool to prepare students for both the Ob Gyn clerkship and the end rotation NBME shelf examination. Texts in this series blend a bullet outline format with comprehensive paragraphs as needed for optimal study and rotation preparation. Illustrations, charts, tables, graphs, mnemonics, and Quick Hit pearls for the clerkship all speed and supplement learning. Ample content without superfluous detail is the hallmark of this growing series. 100 USMLE style clinical vignette based questions with answers are provided in the print text along with a companion Website on thePoint which will offer an additional 100 USMLE style questions in a quiz bank, an image bank as well as an online ebook. Provided by publisher **SOAP for Family Medicine** Daniel C. Maldonado (M.D.), Cynthia Zúñiga, 2005 SOAP for Family Medicine features 90 clinical problems with each case presented in an easy to read 2 page layout. Each step presents information on how that case would likely be handled. Questions under each category teach the students important steps in clinical care. Blackwell's new SOAP series is a unique resource that also provides a step by step guide to learning how to properly document patient care. Covering the problems most commonly encountered on the wards, the text uses the familiar SOAP note format to record important clinical information and guide patient care. SOAP format puts the emphasis back on the patient's clinical problem, not the diagnosis. This series is a practical learning tool for proper clinical care, improving communication between physicians and accurate documentation. The books not only teach students what to do but also help them understand why. Students will find these books a must have to keep in their white coat pockets for wards and clinics. *SOAP for Pediatrics* Michael A.
