The New Harvest Calestous Juma, 2011-01-14 African agriculture is currently at a crossroads at which persistent food shortages are compounded by threats from climate change. But as this book argues, Africa faces three major opportunities that can transform its agriculture into a force for economic growth: advances in science and technology, the creation of regional markets, and the emergence of a new crop of entrepreneurial leaders dedicated to the continent's economic improvement. Filled with case studies from within Africa and success stories from developing nations around the world, *The New Harvest* outlines the policies and institutional changes necessary to promote agricultural innovation across the African continent. Incorporating research from academia, government, civil society, and private industry, the book suggests multiple ways that individual African countries can work together at the regional level to develop local knowledge and resources, harness technological innovation, encourage entrepreneurship, increase agricultural output, create markets, and improve infrastructure. **The London and China Telegraph**, 1869 *Current Catalog* National Library of Medicine (U.S.),

Hidden Hand Clive Hamilton, Mareike Ohlberg, 2020-07-02 Heavily sourced, crisply written, and deeply alarming. *The Times*: This is a remarkable book with a chilling message. *Guardian*: The Chinese Communist Party is determined to reshape the world in its image. Its decades-long infiltration of the West threatens democracy, human rights, privacy, security, and free speech. Throughout North America and Europe, political and business elites, Wall Street, Hollywood, think tanks, universities, and the Chinese diaspora are being manipulated with money, pressure, and privilege. *Hidden Hand* reveals the myriad ways the CCP is fulfilling its dream of undermining liberal values and controlling the world. **Oxford Textbook of Suicidology and Suicide Prevention** Danuta Wasserman, Camilla Wasserman, 2009-03-26 The Oxford Textbook of Suicidology is the most comprehensive work on suicidology and suicide prevention that has ever been published. Written by world-leading specialists, it describes all aspects of suicidal behaviour and suicide prevention, provides up-to-date information on the different kinds of risk and protective factors, and provides an overview of research within disciplines covering psychological, cultural, biological, and sociological factors.
