Sustainable Entrepreneurship Christina Weidinger, Franz Fischler, René Schmidpeter, 2013-08-13 Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value so called Shared Value This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice At the same time this book is a wake up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension Well structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world s most challenging problems such as Climate Change Finance Crisis and Political Uncertainty as well as to ensuring business success The book provides a framework of orientation where the journey might go What can a successful concept of SE look like What are the key drivers for its realisation What is the role of business in shaping the future of our society The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award www.seaward.org The Sustainable Entrepreneurship Award short SEA is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture Companies that receive the SEA are being recognised for the vision they have shown in combining economic and sustainable responsibility

Global Economic Trends and Their Impact to Corporate Development Frank Bezjak, 2010 Without a doubt Global Economic Trends have sustainably changed today s economic and socioeconomic landscape and the transformational power of GETs will drive industries and markets to a new secular destination However there are substantial uncertainties over future economic growth arising from the complex interplay of domestic and global determinants including such diverse factors as demographics advances in technology capital availability scarcity of resources domestic policies and global trade regimes environmental policies and financial regulations Aligning the right information to successfully plan and to implement management principles is challenging to corporations especially when addressing resource and investment decisions

Therefore corporations need to establish organizational measures to incorporate the risks associated to GETs into the strategic management process and to avoid harm to the corporate portfolio The scientific contribution of this thesis is a tool called GET assessment framework which can be applied within strategic business planning to tackle risks associated to GETs The intent of the tool is to analyze the impact of a trend to the actual business situation of the corporation and to help the management to formulate and to establish counter measures within a scenario planning To prove its applicability the GET scarcity of resources is used to demonstrate how the shortage of oil is affecting a virtual corporation that is operating within the chemical industry which is a recent problem to business planning in the industry Using the concept of corporate evaluation which is introduced within the assessment framework potential risks are identified By this means external risks are mapped to the internal environment of the corporation and countermeasures are developed **Global**

Entrepreneurship and Development Index 2017 Zoltan J. Acs,László Szerb,Ainsley Lloyd,2017-09-14 This brief presents a detailed look at the entrepreneurial ecosystem of nations around the world by combining individual data with institutional components Presenting data from the 2017 Global Entrepreneurship and Development Index GEDI which measures the quality and scale of entrepreneurial process from 137 countries world wide this book provides a rich understanding of entrepreneurship and a more precise means to measure it In addition to yearly data and comparison this 2017 edition also explores the digital entrepreneurial ecosystem and provides a detailed analysis of two measurements of entrepreneurship the GEDI and the Total Early Stage Entrepreneurial Activity TEA measure Whereas developed countries will be challenged to increase their economic productivity to sustain current standards of living as their populations rapidly age developing economies will need to integrate more than two billion young adults into the world economy by 2050 How can more than one billion jobs be created in the developing world within this timeframe especially in the least developed countries where poverty and massive unemployment are already dominant facts of economic life How can we measure monitor and build the ecosystems to produce such growth The GEDI is designed to profile national systems of entrepreneurship It links institutions and agents through a National Entrepreneurial System ecosystem in which each biotic and abiotic component is reinforced by the other at the country level The resulting data gives policymakers a tool for understanding the entrepreneurial strengths and weaknesses of their countries economies thereby enabling them to implement policies that foster productive entrepreneurship The GEDI also helps governments harness the power of entrepreneurship to add these types of challenges
