The Age Of Sutton Hoo:

The Age of Sutton Hoo M. O. H. Carver, 1992 The Age of Sutton Hoo runs from the fifth to the eighth century AD the age which separates the fall of the Roman Empire from the emergence of the nation states that have endured down to the present day This is a dark and difficult age where hard evidence is rare but glittering and richly varied myths king lists placenames sagas settlements runic inscriptions palaces belt buckles post holes middens and graves says the editor are all grist to our mill This volume celebrates the fiftieth anniversary of the discovery of that most famous burial of the early middle ages the great treasure now in the British Museum unearthed from the centre of a ninety foot long ship buried in the sand beneath a mound on remote Suffolk heathland at Sutton Hoo It also marks the end of the major campaign of excavations carried out there over the past decade which involved the widest possible range of disciplines The scholars whose work is gathered here represent together with Martin Carver's concluding chapter summarising the results of the latest excavations the current state of knowledge about this extraordinary site that it still has secrets to reveal is shown by the last minute discovery of a striking burial of a young noble with his horse and grave goods **The Age of Sutton Hoo**, 1999

Topographies of Power in the Early Middle Ages Frans Theuws, Mayke B. de Jong, Carine Van Rhijn, 2001 Saint Maurice d'Agaune Gudme Vistula Francia Maastricht Aachen Gaul Cordoba *The Four Funerals in Beowulf* Gale R. Owen-Crocker, 2000 It is well known that the old English poem Beowulf begins and ends with funerals and includes the third as a digression part way through Now for the first time a fourth funeral hitherto disguised as poetic imagery is identified from archaeological evidence A detailed analysis of the four funerals establishes their thematic and structural importance revealing them as pillars around which the poem is built The poet is revealed as a literate antiquarian of considerable structural skill one who explores feminist issues plays with numbers and enjoys a pun who establishes an ideal then probes its darker side The author's unique knowledge of Anglo Saxon culture provides constant surprises and enlightenment This book will be invaluable to all students of the poem for its fresh and detailed reading its identification of a coherent structure and its establishment of the integrity of the surviving texts **The Public Archaeology of Treasure** Howard Williams, Samuel Clague, Peter Reavill, 2022-09-01 Select proceedings of the 5th University of Chester Archaeology Student Conference 31 January 2020 reflect on the shifting and conflicting meanings values and significances for treasure in archaeology's public engagements interactions and manifestations *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Globalism in the Middle Ages and the Early Modern Age* Albrecht

Classen,2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable *The Dating of Beowulf* University of Toronto. Centre for Medieval Studies,1997-01-01 A seminal collection of studies on the date of Beowulf now back in print that overturned previous scholarship and raised much new information *Time in the Medieval World* Chris Humphrey,W.
