playing a vital role in who we are what we do and why we do it No other idea or mythology has as much influence on our individual and collective lives Tracing the history of the phrase in popular culture Samuel gives readers a field guide to the evolution of our national identity over the last eighty years Samuel tells the story chronologically revealing that there have been six major eras of the mythology since the phrase was coined in 1931 Relying mainly on period magazines and newspapers as his primary source material the author demonstrates that journalists serving on the front lines of the scene represent our most valuable resource to recover unfiltered stories of the Dream The problem however is that it does not exist the Dream is just that a product of our imagination That it is not real ultimately turns out to be the most significant finding about the American Dream and what makes the story most compelling The Conservative Case for Trump Phyllis Schlafly, Ed Martin, Brett M. President Trump, Inc. T. J. Coles, 2017-06-19 An important book that deserves to reach a wide audience Noam Chomsky With Trump in the White House big business has direct power in government Trump has stacked his cabinet with former employees of investment banks big oil and international corporations Now that big business has its representatives in the cabinet it no longer needs to indulge in expensive lobbying Under Trump corporations control US policy How and why did this happen and what does it mean for the bulk of the population T J Coles presents the background to Trump's rise tracing the history of economic neoliberalism He shows what a liberal economy means in practice privatization of public resources cutting red tape for corporations and internationalizing volatile money markets For ordinary working people neoliberalism translates to ongoing falls in living standards fewer protections for workers spiralling housing costs and social cutbacks As a consequence many voters are turning their backs on mainstream politics with some supporting far right populist parties including the Trump faction of the Republican Party and UKIP in Britain despite the fact that these parties support the very policies that make ordinary people poorer President Trump Inc exposes the Trump hoax Trump sold himself as a maverick but in reality big business has been lobbying Congress for years to do what he campaigned for tearing up the international TPP trade agreement keeping out low skilled immigrants whilst fast tracking specific foreign workers and helping repatriate corporations to the US Trump's apparently personal agenda to Make America Great Again is actually big business's wish list Coles concludes on a positive note offering tangible hope Real change he notes doesn't come from the top down Millions of people all over the world are working at the local level to win power back from centralized elites for their communities The first step in this process of true democratization is to understand what's really happening and Coles's essential analysis provides a clear picture of the present reality
