Accelerating Human Evolution by

Theosophical Initiation Yves Mühlematter, 2022-12-19 The main subjects of analysis in the present book are the stages of initiation in the grand scheme of Theosophical evolution These initiatory steps are connected to an idea of evolutionary self development by means of a set of virtues that are relative to the individual s position on the path of evolution The central thesis is that these stages were translated from the Hindu tradition to the Theosophical tradition through multifaceted hybridization processes in which several Indian members of the Theosophical Society partook Starting with Annie Besant s early Theosophy the stages of initiation are traced through Blavatsky s work to Manilal Dvivedi and T Subba Row both Indian members of the Theosophical Society and then on to the San tana Dharma Text Books In 1898 the English Theosophist Annie Besant and the Indian Theosophist Bhagavan Das together founded the Central Hindu College Benares which became the nucleus around which the Benares Hindu University was instituted in 1915 In this context the San tana Dharma Text Books were published M hlematter shows that the stages of initiation were the blueprint for Annie Besant s pedagogy which she implemented in the Central Hindu College in Benares In doing so he succeeds in making intelligible how esoteric knowledge was transferred to public institutions and how a broader public could be reached as a result The dissertation has been awarded the ESSWE PhD Thesis prize 2022 by the European Society for the Study of Western Esotericism
