Cli-Fi and Class Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth s ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn **Cli-fi** Axel Goodbody, Adeline Johns-Putra, 2018 Proto Climate Change Fiction Speculative future fiction dystopian and post apocalyptic narratives Realist narratives set in the present and near future Thriller crime conspiracy social satire Children s film and young adult novels Literary modernism Notes on Contributors Understanding Public Debates Jens Martin Gurr, 2024-06-20 By historicizing and contextualizing them through readings of carefully selected literary texts literary studies can contribute to understanding and rationalizing key debates waged in many pluralist societies today whether on different conceptions of liberty identity politics historical commemoration challenges of globalization or responses to climate change Understanding Public Debates presents case studies including Milton s Paradise Lost P B Shelley s 1820 Reform essay Philip Roth s The Human Stain the songwriting of Neil Young and Edward Young s 1720s Sea Odes recent climate fiction as well as non literary conflict narratives Rather than mining texts for arguments for or against certain positions this book is interested in how texts stage these debates by means of multiple perspectives narrative situations or ambiguities By suggesting how educators might use literary texts as conversation starters for more rational debates the volume also contributes to Public Literary Studies Three important fields are here brought together 1 the study of societal debates and conflicts and the ways in which they challenge pluralist societies 2 explorations of the societal functions of literature and of non literary narratives and 3 discussions of the role and functions of literary studies The book ends with ten crisp theses on how literary studies can contribute to understanding and rationalizing such conflictive debates *The Near Future in Twenty-First-Century Fiction* David Sergeant, 2022-12-22 A growing awareness of climate change and looming planetary crisis has put unprecedented pressure on the near future leading to an increasing amount of fiction being set there But what do these disparate works have in common other than their temporal setting And what can the imagination of the near future tell us about where we live now The Near Future in 21st Century Fiction ranges across novels and films to reveal how our contemporary near future splits between two divergent paths One seeks to retreat from climate change and the disruption it

threatens to affluent lifestyles the other tries to imagine new forms of community and radical change but struggles to locate a genre adequate to the task It in this struggle however that we begin to glimpse the outlines of an emergent near future form a revolution fit for the Anthropocene **Science Fiction and Climate Change** Andrew Milner,J. Anthropocene Ecologies of Food Simon C. Estok,S. Susan Deborah,Rayson K. Alex,2022-06-22 Anthropocene Ecologies of Food provides a detailed exploration of cross cultural aspects of food production culinary practices and their ecological underpinning in culture The authors draw connections between humans and the entire process of global food production focusing on the broad implications these processes have within the geographical and cultural context of India Each chapter analyzes and critiques existing agricultural food practices and representations of aspects of food through various media such as film literature and new media as they relate to global issues generally and Indian contexts specifically correcting the omission of analyses focused on the Global South in virtually all of the work that has been done on Anthropocene ecologies of food This unique volume employs an ecocritical framework that connects food with the land in physical and virtual communities and the book as a whole interrogates the meanings and implications of the Anthropocene itself *City of Dancing Gargoyles* Tara Campbell,2024-09-03 In the parched post apocalyptic Western U S of the 22nd Century wolves float bonfires sing and devils gather to pray Water and safety are elusive in this chaotic world of alchemical transformations where history books bleed dragons kiss and gun toting trees keep their own kind of peace Among this menagerie of strange beasts two sentient stone gargoyles known only as E and M flee the rubble of their Southwestern church in search of water Along the way they meet climate refugees Dolores Baker and her mother Rose who ve escaped the ravaged West Coast in search of

a safer home This quartet forms an uneasy alliance when they hear of a new hope a mysterious city of dancing gargoyles Or is it something more sinister In this strange terrible new world their arrival at this elusive city could spark the destruction of everything they know Tara Campbell summons fantastical magic in this kaleidoscopic new speculative climate fiction [The Oxford History of the Novel in English](#) Cyrus R.
