Becoming Human Eliza Green, 2012-12-18 Time is running out for humans. A new planet can save them. A hostile alien race will destroy everything they've worked for. Bill Taggart did not expect to come face to face with his wife's killer, but in the midst of a massive relocation programme to Exilon 5, the World Government investigator has a choice to make: Continue to monitor the threat levels of the Indigene race on Exilon 5 or kill the murderer who calls himself Stephen. But there is more to the hostile Indigene race and the plans for relocation as Laura O'Halloran discovers a secret so great it could destroy both worlds. She is faced with a decision: keep quiet about what she knows or tell the truth. Tell the truth, of course. Elizabeth Briggs Eva Chase and Jaymin Eve **Men Like Gods** H. G. Wells, 2023-11-20 In H G Wells's thought provoking novel *Men Like Gods* the author delves into a speculative society where an enigmatic utopia offers a stark contrast to the complexities of the contemporary world. The narrative follows a group of characters who find themselves in this mesmerizing civilization engaging with themes of freedom, morality, and the human condition. Wells's rich prose serves to stimulate critical reflection using a blend of vivid description and philosophical dialogue. The work is a hallmark of early 20th century science fiction, mirroring the anxieties and aspirations of an era marked by rapid technological progress and societal change. H G Wells, heralded as one of the founding figures of science fiction, was deeply influenced by the social and political upheavals of his time. His background as a historian and social commentator informed his keen insights into human nature and the implications of technological advancement. Wells's philosophical inquiries are evident throughout the novel where he challenges readers to reconsider the boundaries between civilization and chaos and the ethical ramifications of progress. Readers seeking a profound exploration of utopian ideals juxtaposed with human fallibility will find *Men Like Gods* an essential addition to their literary repertoire. Wells's masterful storytelling not only entertains but also encourages introspection on what it means to be truly human in an ever evolving world. [The Cambridge Companion to American Fiction After 1945](#) John N. Duvall, 2012 A comprehensive 2011 guide to the genre's historical contexts, cultural diversity, and major authors of American fiction since the Second World War. [Contemporary Women's Post-Apocalyptic Fiction](#) Susan Watkins, 2020-02-29 This book examines how contemporary women novelists have successfully transformed and rewritten the conventions of post apocalyptic fiction. Since the dawn of the new millennium there has been an outpouring of writing that depicts the end of the world as we know it, and women writers are no exception to this trend. However, the book argues that their fiction is distinctive. Contemporary women's work in this genre avoids conservatism, a nostalgic mourning for the past, and the focus on restoring what has been lost, aspects key to much male authored apocalyptic fiction. Instead, contemporary women writers show readers the ways in which patriarchy and neo colonialism are intrinsically implicated in the disasters they envision and offer qualified hope for a new beginning for society, culture, and literature after an imagined apocalyptic event. Exploring science, nature, and matter, the posthuman body, the maternal imaginary, time, narrative, and history, literature, and the word, and the post secular, the book covers a wide variety of writers and addresses issues of nationality, race, and ethnicity, as well as gender and sexuality.
