The 7 Best Things Happy Couples Do...plus one John Friel, Linda D. Friel, 2010-01-01 Psychologists and best selling authors John and Linda Friel have written an enormously readable and infinitely practical book that delves into what makes a relationship enduringly successful. Wherever readers are in their own relationships this book can improve those relationships dramatically bringing them immediate and lasting benefits. In the tradition of their bestseller *The 7 Worst Things Good Parents Do* the authors examine the behaviors that happy effective couples display continually. After careful investigation the Friels synthesized years of clinical work into a manageable list of the most significant patterns of behavior couples must address and embrace if they want to become truly great couples. Recognizing that other patterns and behaviors certainly do exist when patients come the Friels for help the core issues illustrated in this book are discussed as the couples move boldly toward improving their relationships with consistently outstanding results. The authors found that they had not seven but eight key items to identify. Here are a few: Be Sexual, Be Willing To Divorce, Manage Your Fear, Hurt, Shame And Loneliness, Own Your Part, be responsible for creating a great relationship.

What to Do when Your Children Turn Into Teenagers David L. Bennett, 2005 Every parent wonders if they are doing a good job. When their kids become teenagers many begin to doubt themselves even more. This title will change the way you parent your teenagers. It covers what every parent needs to know about every stage of adolescence.

The Power and Grace Between Nasty Or Nice John Friel, Ph.D., 2012-05 In this illuminating book the Friels explain that power without graciousness results in bullying and nastiness. Graciousness without power results in being a doormat. However power tempered with graciousness elevates us beyond our purely animalistic selves. It produces competence, gratitude, humility and effectiveness attributes that are sorely lacking in today's world where entitlement, narcissism and incivility reign supreme. By learning how to find and balance this power zone between victim and perpetrator anyone can stop dysfunctional patterns of behavior and ignite positive change. In fact the Friels show how even one very small change held firmly for six to twelve months can cause more system wide change than anything else you can do. Over the past twenty seven years their Clearlife Clinic Program has helped more than 6 000 people identify and change ingrained patterns of behavior, beliefs and feelings.
