Routledge Handbook of Contemporary African Migration Daniel Makina, Dominic Pasura, 2023-09-01 This handbook provides an authoritative multidisciplinary overview of contemporary African international migration It endeavours to present a single source of reference on issues such as migration history trends migrant profiles narratives migration development nexus migration governance diasporas impact of the COVID 19 pandemic among others The handbook assembles a multidisciplinary contributor team of distinguished and upcoming Africanist scholars practitioners researchers and policy experts both inside and outside Africa to contribute their perspectives on contemporary African migration It attempts to address some of the following pertinent questions What drives contemporary migration in Africa How are its patterns and trends evolving What is the architecture of migration governance in Africa How do migration diaspora engagement and development play out in Africa What are the future trajectories of African migration The handbook is a valuable resource for practitioners politicians researchers university students and academics interested in studying and understanding contemporary African migration *The African Conundrum* Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-05-22 The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion While

the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency **Modern**
