The Alpha Wolf A Tale About The Modern Male:

Alpha Wolf Nick Clements, 2013-09-27 Roger Cologne is an Alpha Boy He has all the trappings of success the looks car flat and a high powered job He doesn't do relationships He is a collector of conquests without consequence By unexpectedly becoming a father and receiving redundancy he discovers there is more to life He is forced to start his personal development journey He seeks to learn more about himself as well as entering a meaningful relationship By doing so he moves towards becoming an Alpha Wolf Written by Professor Nick Clements one of the world's foremost experts on masculinity and rites of passage this compelling story allows us to gain understanding and insight into the modern man's journey Combining humour wisdom and emotionally charged stories the book explains how a lot of men think and experience the separate worlds of work relationships and feelings It is full of advice and guidance for us all and incorporates exercises and life style development work which has been practiced by hundreds of people over the last 20 years *The Wolves of Pilovo* Thomas Coohill, 2006-02-04 Based on the Siberian wolf attack of 1927 and told from the point of view of both wolves and humans It was a Wolf Winter so deeply cold that forest trails were empty and only humans had enough food to survive Over 100 wolves the largest pack ever seen surround the Siberian village of Pilovo desperate in their search for game Pets and farm animals stand alert villagers sense trouble the frozen stage is set This account details each event of the attack the unrelenting terror the vicious combat Neither wolf nor man is safe neither can imagine the outcome Arctic cold and savage fighting inflict endless damage on predator and prey In this isolated wilderness tucked inside a bleak country only animal cunning and ruthless perseverance will prevail *Gender and the Male Character in 21st Century Fairy Tale Narratives* Natalie Le Clue, 2024-09-16 Putting Prince Charming in the academic spotlight this collection examines the evolution of male fairy tale characters across modern series and films to bridge a gap that afflicts multiple disciplines *Ezra's Story; Saving Canis lupus* Raymond Greiner, 2018-02-02 The historical development of the human species has impacted our world with numerous changes which have altered natural ecological formats beyond what could have been perceived during ancient human history Humanity has inundated the Earth with such vastness it has caused disarray and loss of natural balance among what are viewed as lesser beings The terrestrial non human life forms have been challenged to adapt to the ubiquity of human imposed negative influences Wolves have been an earthly presence for nearly a million years functioning the same as they do currently Wolf and human character traits are amazingly similar Ancient human hunter gatherer civil design formed and operated exactly like we observe present day wolves Tribes were small in number socially connected and completely reliant on unity and harmonious function installed as a means of survival The wolf pack is a perfected uniform social order and these wolves are among the most adaptable planetary organisms They function and survive in the harshest climates and remain a presence especially in high latitudes I was inspired to create a story displaying the importance and necessity of predators like wolves to be allowed opportunity to continue as a viable species Ecological balance is dependent on predatory animals as a

means to gain longevity Natural science has only recently truly understood the importance of wolves in the arctic and other remote regions of the world It s a hope as the human species confronts its future wolves will be included **Santa's**
