The Appalachian Trail Philip D'Anieri, 2021 The conception and building of the Appalachian Trail is a story of the unforgettable characters who explored it defined it and captured national attention by hiking it D Anieri provides backstories for the dreamers and builders who helped bring the Trail to life over the past century A must read for anyone who wonders about our relationship with the great outdoors adapted from jacket

Appalachian National Scenic Trail Charles H. W. Foster, 1987 In 1968 management of the Appalachian Trail shifted from control by an informal alliance of private citizen volunteers to a designated responsibility of the National Park Service To protect it from adverse development Congress had made the trail part of the national park system and endorsed an unique private public cooperative management system involving scores of private organizations and public jurisdictions The volunteers still have the lead role in defining the work but public agencies have the accountability This June 1987 history is the inside story of how the pieces of that puzzle were put together by the chairman of a group of volunteers and state appointed officials that crafted this model of private public stewardship of public recreational lands
