Innovation and Emerging Trends in Computing and Information Technologies Manisha Malhotra, 2025-01-27 This book constitutes the proceedings of the First International Conference on Innovation and Emerging Trends in Computing and Information Technologies IETCIT 2024 held in Mohali India in March 1 2 2024 The 44 full papers presented in these two volumes were carefully reviewed and selected from 417 submissions The papers are organized in the following topical sections Part I machine learning and deep learning pattern and speech recognition internet of things IoT Part II data science and data analytics communication network and security **The Algorithmic Age of Personality** James Yékú, 2025-05-01

As the affordances of authorship and reading practices on social media become deeply mediated by algorithmic curation they encourage closer attention to the author's personality as fundamental to literary production The Algorithmic Age of Personality African Literature and Cancel Culture challenges any lingering utopianism in the role of digital media in African cultural productions by exploring how algorithms engender a culture of outrage conflict and personality driven and ego battles that distract from aesthetic and ethical evaluations of literary texts In Y k's careful attention to how contemporary African literary practices are significantly marked by the extractivist and affective logics of social media algorithms he articulates the current state of debating in the critical universe of African literature and connects this to the phenomenon of cancel culture Rather than a Manichean understanding of cancel culture Y k illustrates how the politics of both conservative and liberal polarization shape what can and cannot be said in online commentaries on African literary forms The outcome is a work that situates postcolonial classics by Chinua Achebe and Joseph Conrad in online debates on cancel culture and decolonization while responding to social media discussions on Western literary prizes ethnicity and sexuality involving writers like Soyinka Ng g Wainaina and Adichie **Proceedings on 25th International Joint Conference on Industrial Engineering and Operations Management - IJCIEOM** Zoran Anisic, Bojan Lalic, Danijela Gracanin, 2020-03-20 This book presents the conference proceedings of the 25th edition of the International Joint Conference on Industrial Engineering and Operations Management The conference is organized by 6 institutions from different countries and continents that gather a large number of members in the field of operational management industrial engineering and engineering management This edition of the conference had the title THE NEXT GENERATION OF PRODUCTION AND SERVICE SYSTEMS in order to emphasize unpredictable and very changeable future This conference is aimed to enhance connection between academia and industry and to gather researchers and practitioners specializing in operation management industrial engineering engineering management and other related disciplines from around the world Interconnected World, Lost Connections Sanjeev Kumar Mahajan, Vinay Sharma, Rabindranath Bhattacharyya, Himanshu Shekhar Mishra, 2025-10-13 This book offers a comprehensive account of social media as a tool for connecting the world and how its amoeboid growth pattern has led it to where it is today Fuelled by rapid advances in communication technologies social media platforms are gradually

revolutionising the way billions of users communicate and share content worldwide on the web They have become the fulcrum of the interconnected world in the present century The book articulates a specific theme beginning with foundational concepts followed by an in depth analysis of the current scenario and its associated challenges This book explores both the promise and the pitfalls of social media From its role in participatory politics crowd sourced crisis response and cultural promotion to its misuse in everyday life it examines the expanding impact of social platforms Through a thought provoking analysis it asks How do we channel this power meaningfully in the age of relentless digital integration It suggests that the solution is not to disconnect but to reimagine connection with responsibility awareness and purpose The book will be specifically valuable for students teachers and practitioners of Communication and Media Public Policy Public Administration Sociology and General Management

Character Limit Kate Conger, Ryan Mac, 2024-09-17 Named a Best Book of the Year by Kirkus Reviews Riveting Character Limit offers a telling lesson in the cost of getting everything you want The Washington Post You couldn't hope for a better ringside seat on the unfolding drama Character Limit is a triumph The Guardian Masterful in how it paints a picture and puts you in the room with the famous entrepreneur Character Limit is a page turner Forbes Rising star New York Times technology reporters Kate Conger and Ryan Mac tell for the first time the full and shocking inside story of Elon Musk's unprecedented takeover of Twitter and the forty four billion dollar deal's seismic political social and financial fallout The billionaire entrepreneur and Tesla CEO Elon Musk has become inextricable from the social media platform that until 2023 was known as Twitter Started in the mid 2000s as a playful microblogging platform Twitter quickly became a vital nexus of global politics culture and media where the retweet button could instantly catapult any idea to hundreds of millions of screens around the world unleashing raw collective emotion like nothing else before While its founder had idealistically dreamed of building a digital town square he detested Wall Street and never focused on building a profitable business Musk joined the platform in 2010 and by 2022 had become one of the site's most influential users hooking over 80 million followers with a mix of provocations promotion of his companies and attacks on his enemies To Musk Twitter once known for its almost absolute commitment to free speech had badly lost its way He blamed it for the proliferation of what he called the woke mind virus and claimed that the survival of democracy and the human race itself depended on the future of the site In January of 2022 Musk began secretly accumulating Twitter stock By April he was its largest shareholder and soon after made an unsolicited offer to purchase the company for the unimaginable sum of 44 billion dollars Backed into a corner Twitter's board accepted his offer but Musk quickly changed his mind forcing Twitter to sue him to close the deal in October The richest man on earth controlled one of the most powerful media platforms in the world but at what price Before long Twitter would be gone for good replaced by something radically different as Musk remade the company in his own image from the ground up The story of the showdown between Musk and Twitter and his eventual takeover of the company is unlike anything in business or media that has come before In vivid cinematic detail Conger and Mac follow the inner workings of the company as Musk lays siege to it first from the outside as one of its most vocal users and then finally from within as a contentious and mercurial leader Musk has shared some of his version of events but Conger and Mac have uncovered the full story through exclusive interviews unreported documents and internal recordings at Twitter following the billionaire's takeover With unparalleled sources from within and around the company they provide a revelatory three dimensional and definitive account of what really happened when Musk showed up spoiling for a brawl and intent on revolution with his merciless sycophantic cadre of lawyers investors and bankers This is the defining story of our time told with uncommon style and peerless rigor In a world of viral ideas and emotion who gets to control the

narrative who gets to be heard and what does power really cost
