Masculinities in Post-Millennial Popular Romance Eirini Arvanitaki, 2022-05-12 This book focuses on the projection of the hero's masculinity in a selection of post millennial popular romance narratives and attempts to discover if and to what extent this projection reinforces or challenges patriarchal ideas about gender In the majority of these narratives the hero is often presented as a hegemonic alpha male However hegemonic masculinity is not a fixed concept Rather it is subject to continuous change which allows for the emergence of various dominant masculinities Under a poststructuralist lens and through a close textual analysis approach and a gender reading of romance narratives the book suggests that to a certain extent the romance hero could be described as a platform onto which different forms of dominant masculinity are displayed and highlights that these masculinities do not necessarily clash depend on or function as a prerequisite for each other

Library Programs and Services for New Adults Kyla Hunt, 2017-10-06 Addressing the needs of new adults those

ages 18 to 29 in the library is an important challenge. This book explains the needs and wants of new adults in the public library setting and identifies their preferences in physical space programming and technology. According to the Pew Research Center's 2015 Libraries at the Crossroads Report, 52 percent of people between the ages of 16 and 29 visited a bookmobile or library within the past year. Yet many public libraries programming and outreach skip over this demographic jumping from teen services to older adults. Library Programs and Services for New Adults provides a road map for including new adults into the family of the small public library and offers a variety of resources and programming ideas that librarians can use immediately. Author Kyla Hunt, a library technology and trends specialist, explains why the needs of new adults are typically overlooked at public libraries, defines who new adults are, and explains why serving their needs is key to the success of today's public libraries. Readers will come away with an in-depth understanding of the mindset and needs of patrons who are 18 to 29 years old and be able to cater to their preferences as they pertain to physical space programming, technology, and marketing.
