Trading Magic for Fact, Fact for Magic Marc Colavincenzo, 2003 This study brings together three major areas of interest history postmodern fiction and myth Whereas neither history and postmodern fiction nor history and myth are strangers to one another postmodernism and myth are odd bedfellows For many critics postmodern thought with its resistance to metanarratives stands in direct and deliberate contrast to myth with its apparent tendency to explain the world by means of neat complete narratives There is a strain of postmodern Canadian historical fiction in which myth actually forms a complement not only to postmodernism's suspicion of master narratives but also to its privileging of those marginal and at times ignored areas of history The fourteen works of Canadian fiction considered demonstrate a doubled impulse which at first glance seems contradictory On the one hand they go about demythologizing in the Barthesian sense various elements of historical discourse exposing its authority as not simply a natural given but as a construct This includes the fact that the view of history portrayed in the fiction has been either underrepresented or suppressed by official historiography On the other hand the history is then re-mythologized in that it becomes part of a pre-existing myth its mythic elements are foregrounded myth and magic are woven into the narrative or it is portrayed as extraordinary in some way The result is an empowering of these histories for the future they are made larger than life and unforgettable

The Public Mind and the Politics of Postmillennial U.S.-American Writing Jolene Mathieson, Marius Henderson, Julia Lange, 2022-08-22 In the last twenty years how has U S American writing and the reading public responded to the complexity of an American culture resolutely situated in a larger highly politicized globalized world

undergoing radical change The 20th century modes of realism and postmodernism have been succeeded by writerly practices that are that are invested in the idea of embodied authenticity and that are relatable to neorealism whether it be via outright affirmation or critical experimentation and appropriation The individual case studies mark the ways in which postmillennial U S American writing is marked by an ongoing awareness toward complexity and the entanglement of writers and the reading public with pressing political concerns and at times oppressive social and economic discursive and structural formations These contributions further attest to how narrative and structural complexity grammatical and lexical sophistication and social nuance endure as the main literary modes of confronting 21st century political life This volume is thus of interest for both the study of U S American political culture and U S American literature **Essential Fiction, Stage 3** Pearson Education, Sylvia Karavis, 2004-03 A complete solution for literacy at Key Stage 2 The Monstrous Mother: Unexpected Evil in Myth, Literature, and Popular Culture Anna Chiara Corradino, Alessandro Grilli, 2025-09-30 This edited volume delves into the unexpected intriguing depictions of monstrous mothers in different cultures literatures and the arts This wide ranging topic is explored through a variety of methodological approaches spanning disciplines from sociology to film studies and from comparative literature to cultural studies The scope of this collection is global highlighting the presence of maternal monstrosity not only in Western cultures but also in a number of other cultural contexts worldwide The book s international and interdisciplinary perspective makes it relevant to a broad and diverse readership focusing on literary criticism as well as cultural and gender studies Rewriting the Ancient World , 2017-07-03 Rewriting the Ancient World looks at how and why the ancient world including not only the Greeks and Romans but also Jews and Christians has been rewritten in popular fictions of the modern world The fascination that ancient society holds for later periods in the Western world is as noticeable in popular fiction as it is in other media for there is a vast body of work either set in or interacting with classical models themes and societies These works of popular fiction encompass a very wide range of society and the examination of the interaction between these books and the world of classics provides a fascinating study of both popular culture and example of classical reception **The Guide to the Top 100 Fiction & Literature Books** Navneet Singh, Table of Contents 1 Introduction Why Fiction Literature Matter How This List Was Curated Who This Book Is For 2 The Top 100 Books Classic Literature 20 books Modern Masterpieces 20 books Science Fiction Fantasy 20 books Mystery Thriller Horror 20 books Historical Contemporary Fiction 20 books 3 Honorable Mentions Emerging Books Books that Almost Made the List New Trending Fiction Books 4 Conclusion Recommendations The Importance of Reading Fiction Suggested Reading Paths Based on Interests e g Best Books for Classic Literature Fans Must Reads for Fantasy Lovers Encouragement to Explore and Discover New Books *Sleepy Hollow as American Myth* Steve A.
