Our minds are such that we are often more asleep than awake to the unique beauty and possibilities of each present moment. While it is in the nature of all our minds to default to autopilot and lose touch with the only time we actually have to live, to feel, to grow, to love, to learn, to give shape to things, to heal, our mind also holds the innate capacity to awaken to each moment. This book gives you a variety of ways to experiment with, not missing your moments and take maximal advantage of them by tending what most needs
