Reddit Book Discussions Primer:

A Primer of Mathematical Writing Steven G. Krantz, 2017-11-07 This is the second edition of a book originally published in 1997. Today the internet virtually consumes all of our lives especially the lives of writers. As both readers and writers we are all aware of blogs, chat rooms, and preprint servers. There are now electronic only journals and print on demand books. Open Access journals and joint research projects such as MathOverflow, not to mention a host of other new realities. It truly is a brave new world, one that can be overwhelming and confusing. The truly new feature of this second edition is an extensive discussion of technological developments. Similar to the first edition, Krantz's frank and straightforward approach makes this book particularly suitable as a textbook for an undergraduate course.

Understanding Reddit Elliot T. Panek, 2021-12-24 This book offers a comprehensive scholarly overview of Reddit, one of the most popular and least studied social platforms of the early 21st century. The book inspires new ways of thinking about Reddit, considering it from multiple perspectives through a historical lens as a site where identity is forged, as a democracy, as a community, and as a news aggregator and distributor. By bringing theories from computer-mediated communication, communication studies, and sociology to bear on original large-scale observational analyses of Reddit's communities, this book provides a uniquely comprehensive overview of the platform's first 15 years. Understanding Reddit will help us make sense of how rapidly growing communities function in an era of mass online anonymity. Serving both as a primer on how social behavior on Reddit plays out and as a way of locating it within multiple theoretical traditions, the book will offer important insights to scholars and students in the disciplines of communication, media studies, information science, internet and emerging media studies, and sociology.
