Ghana Today ... Mylène Rémy,1977 Cities and Inequalities in a Global and Neoliberal World Faranak Miraftab,David Wilson,Ken Salo,2015-04-24 Cities continue to be key sites for the production and contestation of inequalities generated by an ongoing but troubled neoliberal project Neoliberalism s onslaught across the globe now shapes diverse inequalities poverty segregation racism social exclusion homelessness as city inhabitants feel the brunt of privatization state re organization and punishing social policy This book examines the relationship between persistent neoliberalism and the production and contestation of inequalities in cities across the world Case studies of current city realities reveal a richly place specific and generalizable neoliberal condition that further deepens the economic social and political relations that give rise to diverse inequalities Diverse cases also show how people struggle against a neoliberal ethos and hence the open endedness of futures in these cities **Long Distance Transport and Welfare of Farm Animals** Michael C. Appleby,2008 Around 60 billion animals are bred for food each year worldwide and more than a billion are transported often over long distances every week However awareness and understanding of animal welfare the factors that affect it and the correlation between it and other issues such as food safety and quality are increasing Long distance transport can cause both physical and mental problems in animals and promoting animal welfare will be beneficial to both the animals and the agricultural and processing industries In conjunction with a global coalition of NGOs working on animal transport and welfare this volume brings together studies from well known animal scientists and researchers to review the implications and necessity of long distance animal transport for slaughter Authoritative reports on regional practices are combined with discussions of the science economics legislation and procedures involved in this practice This review will be essential for researchers and professionals within animal production and welfare as well as veterinary science Global Im-Possibilities Phoebe Godfrey,Julian Agyeman,Mary Buchanan,2023-01-26 At a time when environmental and social stakes are at their highest with rising crises and contradictions at the nexus of a building sense of environmental and social collapse there are no easy solutions Global Im Possibilities explores just what can be done around the world to ameliorate this dynamic Using a range of essays and a multitude of case studies this book explores what new lessons can be learned from examining the challenges and impediments to achieving just sustainabilities on the levels of policy planning and practice and considers how these challenges and impediments can be addressed by individuals and or governments Taking a nuanced approach to provide an intersectional analysis of a particular issue relating to the ideals for achieving sustainability this book asserts that that it is only in recognizing such complexity that we can hope to achieve just sustainabilities **Travel** ,1960 *Who's Who in the World, 1978-1979* Marquis Who's Who, LLC,1978 *Time and Tide* ,1960 *BBC London Calling* ,1983 *Juvenile Author-title Catalog* Orange County Public Library (Calif.),1971 *Current Literature* ,1960
