Ruffin, 2005-06-30 Ever since the caveman gazed longingly at the winged creatures above him mankind has been enamored with the idea of flight of just taking off and soaring away Steven A Ruffin celebrates that spirit that sense of wonder with Aviation's Most Wanted The Top 10 Book of Winged Wonders Lucky Landings and Other Aerial Oddities With dozens of top ten lists focusing on notable flights memorable planes famous and infamous aviators aircraft combat air travel even space travel and so much more Ruffin provides a treasure trove of fun facts and amazing anecdotes celebrating the world's love affair with flight plus the hurt that accompanies any deep love Will Rogers died in a plane crash near Point Barrow Alaska with aviation legend Wiley Post at the controls Rogers was writing an article at the time of the crash eerily the last word he typed was death Isoroku Yamamoto who masterminded the surprise attack on Pearl Harbor met his fate in similarly sneaky fashion U S forces intercepted and decoded information on Yamamoto's travel plans and Pearl Harbored his plane shooting it down into the island jungle of Bougainville The safest seat in a crash depends on if you crash on takeoff or on landing so flip a coin You'll read about the first and worst of flight aces and races and everything from crimes sex and controversy to planes so fast they can outrun the sun With Aviation's Most Wanted you'll get the history of flight from the early balloon adventures of the eighteenth century until the present laid out with trivia and tales to amuse and amaze **Writing the Heavenly Frontier** Denice Turner, 2011-03-10 Writing the Heavenly Frontier celebrates the early voices of the air as it examines the sky as a metaphorical and political landscape While flight histories usually focus on the physical dangers of early aviation this book introduces the figurative liabilities of ascension Early pilot writers not only grappled with an unwieldy machine they also grappled with poetics that were extremely selective Tropes that cast Charles Lindbergh as the transcendent hero of the new millennium were the same ones that kept women black Americans and indigenous peoples imaginatively tethered to the ground The most popular flight autobiographies in the United States posited a hero who rose from the mundane to the miraculous and yet the most startling autobiographies point out the social factors that limited or forbade vertical movement both literally and figuratively A survey of pilot writing the book will appeal to flight enthusiasts and people interested in American autobiography and culture But it will also appeal strongly to readers interested in the poetics and politics of place **Boys' Books, Boys' Dreams, and the Mystique of Flight** Fred Erisman, 2006 Setting the stage technology and the series book Birdmen and boys 1905 1915 Aces and combat World War I

Tiger Check Steven A. Fino,2017-11 The fielding of automated flight controls and weapons systems in fighter aircraft from 1950 to 1980 challenged the significance ascribed to several of the pilots historical skillsets such as superb hand eye coordination required for aggressive stick and rudder maneuvering and perfect eyesight and crack marksmanship required for long range visual detection and destruction of the enemy Highly automated systems would proponents argued simplify the pilot s tasks while increasing his lethality in the air thereby opening fighter aviation to broader segments of the population However these new systems often required new unique skills which the pilots struggled to identify and develop Moreover the challenges that accompanied these technologies were not restricted to individual fighter cockpits but rather extended across the pilots tactical formations altering the social norms that had governed the fighter pilot profession since its establishment In the end the skills that made a fighter pilot great in 1980 bore little resemblance to those of even thirty years prior despite the precepts embedded within the myth of the fighter pilot As such this history illuminates the rich interaction between human and machine that often accompanies automation in the workplace It is broadly applicable to other enterprises confronting increased automation from remotely piloted aviation to Google cars It should appeal to those interested in the history of technology and automation as well as the general population of military aviation enthusiasts Provided by publisher

The Three Hardest Words Leonard Sweet,2010-05-26 Three simple words I love you capture the heart of Jesus life and ministry These three words form the bottom line and top drawer of all his teachings And they remain the three hardest words in the world to get right Two pronouns and a verb have never been so difficult to grasp much less to practice Popular culture has ruined love s reputation by redefining it first as romance and then as lust But it s not just the meaning of the word love that causes so much confusion To fully understand love we also need to find out who we are in God s eyes and whom we are commanded to love Following Jesus can be described as the daily practice of all three words I Love You There is nothing more rewarding and nothing more risky Join Leonard Sweet in this eye opening life altering exploration of three simple one syllable words After all the lifestyle of love is the only life that Jesus calls you to live There is nothing more challenging than adopting the three word lifestyle of Jesus as your own Perhaps you have wondered why love seems to work for everyone else but not for you Or maybe you ve

done your best to love those around you but it seems that life has drained your last drop of trust and affection Nothing is better than love when it s right and nothing is more destructive than attempts at love that fail to follow the Jesus prescription for a healthy life Jesus devoted his earthly life to saying these three words I love you and teaching us how to say them As Jesus defined love it takes everything you ve got and then even more which only God can give The lifestyle of love is not something you can master on your own but Jesus is ready to show you how Starting today you can learn to live I love you the three hardest words in the world to get right Leonard Sweet PhD serves as the E Stanley Jones Professor of Evangelism at Drew Theological School in Madison New Jersey He is also a Distinguished Visiting Professor at George Fox University in Newberg Oregon and founder and president of SpiritVenture Ministries He has written many books including Out of the Question Into the Mystery and the trilogy SoulTsunami AquaChurch and SoulSalsa
