thehyperspaceproject.com Excerpt Karg woke to the sound of explosions rocking the ship Karg Get to Bay One we're about to have company Arya's voice demanded over his com badge Karg fell out of bed onto his knees The rumble of multiple blasts to the hull rang through his room What what's going on Arya Karg Get your arsk to Bay One Now The sounds of explosions on the bridge almost drowned out Arya's voice Raiders Frek Karg grumbled He flew out of the door into the corridor driving a passing Meth into the wall as they collided The Meth crewmember stumbled to his feet in his cumbersome environmental suit and continued on his way Karg was too distracted to apologize He hopped down the hallway attempting to get a foot into his boot and still shaking off his grogginess He finally got his feet stuffed into his boots before rounding the corner into Bay One The fury of plasma blasts hitting the hull reverberated through the hangar like a giant drum I'm in Bay One What the heck is going on out there Karg waited for what seemed like forever for an answer The silence on the com had him worried Finally Arya replied Raiders Everywhere Too small and fast Can't get a clear shot Can't outrun them Suddenly Karg's com badge screeched and whined Then a strange voice broke in Captain of the Ashok surrender and I may let your crew live Karg waited tensely through the long pause Arya didn't appear to be responding to the raider's demands Let me talk to Arnon the voice demanded On the bridge Arya sat tall and straight in the Captain's chair glaring at the main view screen An unkempt scarred face stared back at her Typical raider scum in need of a good bath and some manners At least over the vid link she was spared from his stench All her training and time spent watching Argos command the ship had prepared her for this moment Raider baskurt This is Captain Arya of the Ashok I have been lenient with you so far but do not try my patience Perhaps you have heard about how we recently destroyed a Mok-tu Star Killer Leave now or suffer the same fate The commander of the raiders smirked Yeah I've heard of you alright And I've heard about that weapon of yours A weapon of that power would be worth a lot of credits Way I hear it that weapon could probably rip apart a whole planet The fact that a craft that small can unleash that kind of power has me shakin' in my boots The commander gave a sarcastic laugh The thing is that weapon may be scary powerful when it's launched but right now it's sitting safely aboard your ship Now surrender before I take your ship apart piece by piece Arya's mind raced They knew about the hyperspace ship but they thought it was still aboard the Ashok How could she use that to her advantage And Arnon How did they know Arnon I've called your bluff missy the commander chided Time to pay up Commander Scumbag she began taunting him with insults I do not negotiate with raiders and especially not with the likes of you You have ballusks I'll give you that I can't believe you would threaten the ship carrying the biggest baddest weapon around What the heck were you thinking You're such a patuke I have nothing more to say to you You're not even worth the effort of killing Get out of my way and I will let you live And before you go making another brilliant decision in your colorful yet undoubtedly short career I ask you how sure are you that this weapon can't be fired from within the walls of this vessel Are you willing to bet your life on it The commander's reply was long in coming The smaller raider vessels zipped around the Ashok like beetles on a syrup tree continuing to fly hit and run maneuvers The constant plasma

blasts were beginning to weaken the Ashok's defenses. Finally the commander's voice broke the silence. I understand. You have principles. You don't negotiate with raiders. That's one of your principles. But you see, I don't have any of them principles. Life's much simpler that way. Know what I'm saying? The commander grinned, one gold tooth shining amidst his decaying food-encrusted teeth. It's a shame that a pretty thing like you is going to have to die, but now you're trying my patience. Sirok sent a message to Arya's console with his wireless neural interface. The raiders had made it through the Ashok's collapsing shields and had blown off the outer door to Bay One. With the shields failing and the hull breached, there was nothing to stop them from entering the ship. Arya severed communications with the raiders and the view screen went blank. The time for posturing was over. The raiders in this sector were notoriously dangerous and most likely one of the main reasons so few ever returned from Demented Space. Sirok, you have the con. Patch everything through to my PDU. Arya held up her personal data unit, a handy do-about anything reconfigurable on-the-fly mobile gadget that she seldom left behind. Tell Karg I'm headed down there and get everyone you can to Bay One. We need to stop them from getting into the rest of the ship. Aye, Captain. Sirok busily typed on his console. His holo display showed a diagram of the ship alongside a roster of the crew and their current locations. Arya turned as she entered the transport tube. Lock down the bridge. The tube doors slid shut with a whoosh and the tube sped down to the bay level. Sirok broadcasted a message to all hands, ordering them to defend the hangar bay. The bridge grew quiet. The bombardment had ceased. The raiders were now focused on taking the ship. Sirok put a priority one lockdown in place, sealing off the bridge. Arya would be able to command the ship through her encrypted mobile data unit, but if all else failed, Sirok would have to take over command from the bridge. The protective mucus covering Sirok's body oozed faster. It was a natural bodily function for a Kymirian under stress, a vestige of his ancestry that allowed them to move quickly and replace the antibacterial covering at a more rapid rate. His nerves were beginning to get the best of him and he could feel it in the thinning mucus running down his face. He knew that even with the bridge locked out, the raiders could disable the engines and other systems if they infiltrated the ship. Arya slid to a stop next to Karg in Bay One. The force field in the bay was holding, but through the translucent wall of static, the ominous presence of the raiders was apparent. A boarding party was nearing the field, spreading into several groups. A handful of crewmembers ran into the bay behind Arya. Two Meths, a couple of Arisian ensigns, and Kyrk. Arya frowned. That's it. That's all of you. Hull breach in the aft section. Kyrk responded. Five of the crew were there when it happened. Three didn't make it. The other two are trapped. Arya was all business. Sket. It will have to do. Take cover. We draw the line here. Do you understand? Yes, Sir, the crew replied in true military fashion. In front of them, the glove of an armored space suit pierced through the force field. Karg. They're coming through. They must be using a field modulator. Another hand came through the force field, a pistol aimed and at the ready. Plasma blasts ricocheted off the metal crate in front of them as they ducked. Open fire. Arya commanded as she popped up and fired several rounds at the raiders. A barrage of plasma bolts streaked back and forth across the bay. Puffs of smoke rose from the impacting balls of
