Civil War Wests Adam Arenson,Andrew R. Graybill,2015-03-07 This volume unifies the concerns of Civil War and western history revealing how Confederate secession created new and shifting borderlands In the West both Civil War battlefields and Civil War politics engaged a wider range of ethnic and racial distinctions raising questions that would arise only later in places farther east Likewise the histories of occupation reincorporation and expanded citizenship during Reconstruction in the South have ignored the connections to previous as well as subsequent efforts in the West The stories contained in this volume complicate our understanding of the paths from slavery to freedom for white as well as non white Americans By placing the histories of the American West and the Civil War and Reconstruction into one sustained conversation this volume expands the limits of both by emphasizing how struggles over land labor sovereignty and citizenship shaped the U S nation state in this tumultuous era This volume highlights significant moments and common concerns of this continuous conflict as it stretched across the continent and throughout the nineteenth century Provided by publisher **Jonah Infill Drilling Project** ,2006 **Empire and Liberty** Virginia Scharff,2015-04-09 Empire and Liberty brings together two epic subjects in American history the story of the struggle to end slavery that reached a violent climax in the Civil War and the story of the westward expansion of the United States Virginia Scharff and the contributors to this volume show how the West shaped the conflict over slavery and how slavery shaped the West in the process defining American ideals about freedom and influencing battles over race property and citizenship This innovative work embraces East and West as well as North and South as the United States observes the 2015 sesquicentennial commemoration of the end of the Civil War A companion volume to an Autry National Center exhibition on the Civil War and the West Empire and Liberty brings leading historians together to examine artifacts objects and artworks that illuminate this period of national expansion conflict and renewal The Coal Catalog ,1924 **Twenty Thousand Roads** Virginia Scharff,2003 Virginia Scharff s wonderfully readable account of women in motion complicates and enriches our understanding of the nineteenth and twentieth century Wests Her gendered remapping of the regional landscape explodes traditional notions of western movement All students of women and gender travel and place the West and America would do well to read this excellent book David M Wrobel author of Promised Lands Promotion Memory and the Creation of the American West Virginia Scharff claims for women what has long been central to the masculine mythology of the West free movement and its many gifts real and imagined Her book is as exhilarating and as intellectually and emotionally expansive as our enduring dream of flight across the American land Elliott West author of The Contested Plains Indians Goldseekers the Rush to Colorado Brilliant is not a word that is often a part of my critical vocabulary but brilliantly is how Twenty Thousand Roads begins When writing of

Sacagawea and Susan Magoffin Virginia Scharff shows vividly how a single life can be a source of sophisticated cultural analysis without becoming an academic artifact or an object of condescension Richard White author of *It's Your Misfortune and None of My Own* A New History of the American West **U.S. Geological Survey Professional Paper** ,1965
