Switchbacks True Stories From The Canadian Rockies:

Switchbacks Sid Marty, 1999 In *Switchbacks* Sid Marty draws on his own memories and those of friends and former colleagues in relating a series of true mountain tales Among his subjects are the old guide who built a staircase up a cliff the stranded snowshoer who was rescued between rounds of beer in a Banff tavern the man who catered to hungry grizzlies an opinionated packrat with a gift for larceny and a horse named Candy whose heart was as big as a stove Along the way Marty tries to answer the kind of questions that all of us must face some day Do we really have to grow up and abandon adventure as well as youthful ideals Can the mountains draw old friends back together when politics and life styles have set them apart Sid Marty writes gracefully of the land he loves and lampoons a few bureaucrats whose policies sometimes threaten its integrity His portraits of the people and creatures that make their lives in the mountains are affectionate and respectful But above all this is a collection of engaging surprising funny and superbly told true stories by a gifted writer *The Canadian Rockies* Roger Patillo, 2005 This book tells of the larger than life guides mountaineers and adventurers that created the enduring legends and true tales of the Canadian Rockies when the wilderness was still unspoiled **Lawrence Grassi** Elio Costa, Gabriele Scardellato, 2015-01-01 Lawrence Grassi was a trailblazer in every sense of the word A working class man of humble Italian origins who worked as a labourer and a coal miner for most of his life Grassi had a deep passion for the Rocky Mountains He was famous in the region for his commitment as a guide a mountain climber and a builder of greatly admired hiking trails Today in or near Canmore his name graces a mountain two lakes and a school and he is commemorated at Lake O Hara in Yoho National Park In *Lawrence Grassi From Piedmont to the Rocky Mountains* Elio Costa and Gabriele Scardellato uncover the deeply private man behind this legend from his birth in the small Italian village of Falmenta to his long and inspirational career in Canada Using previously unexamined family letters and extensive information on Grassi s cohort of Italian immigrants the authors reconstruct his personal and professional life correcting myths and connecting his story to the long history of Italian immigration to Canada The definitive biography of this Canadian mountain hero Lawrence Grassi will be essential reading for those interested in the history of immigration sport and the Rocky Mountains *Animal Encounters* Tom Tyler, Manuela S. Rossini, 2009 The fast growing field of Animal Studies is a varied and much contested domain Engagement with animals has encouraged both collaboration and conflict between researchers within the arts humanities and social sciences *Animal Encounters* comprises a series of meetings not only between diverse beasts but also between distinct disciplinary methods theoretical approaches and ethical positions The essays here collected come together from literary and cultural studies sociology and anthropology ecocriticism and art history philosophy and feminism science and technology studies history and posthumanism to study that most familiar and most foreign of creatures a the animala TM These encounters between leading practitioners in the field highlight the promise and potential of interspecies exchange and mutual provocation *Moon Canadian Rockies: With Banff & Jasper National Parks* Andrew Hempstead, 2022-11-01 Snowy

Mountains Figured and Disfigured in the English-Speaking World Françoise Besson, 2020-06-01 The essays in this book written by poets novelists mountain climbers and academics from all over the world evoke the representation of mountains in the English speaking world as artists writers philosophers or mountain climbers have represented them from the sixteenth to the twenty first centuries From the Alps to the Pyrenees from Mount Fuji to Mount Shasta from the Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil's Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a warning as well For centuries

the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature **Moon Canadian Rockies** Andrew

effectively we manage them especially in the face of climate change The message to take home from this eloquent book is that it is time to dispel the myth of limitless abundance of water in Canada and throughout North America We all need to be mindful that though our technologically sophisticated society is largely fuelled and lubricated by refined petroleum it ultimately runs on plain water In his conclusion to this authoritative book Robert Sandford chair of Canada s United Nations Water for Life Decade offers a realistic picture of the various issues and threats related to the future availability and quality of fresh water in Canada *Signpost Guide Canadian Rockies* Donald L.
