Syracuse Ny Images Of America:

Popular Images of American Presidents William C. Spragens, 1988-09-07 The contributors to this volume examine the popular images of twenty two American presidents They attempt to determine the public standing of these presidencies and consider each president in terms of his image over time It is argued that fluctuations in succeeding generations interpretations of past presidents are significant to understanding the kaleidoscopic nature of presidential images A variety of analytical approaches is employed including examination of historical narrative content analysis of editorials and news coverage and explication of public opinion survey data For public reactions and the reactions of other leadership figures the contributors have drawn from the contemporary press as well as from the writings of historians and political scientists This collection of essays will open avenues of thought on American political history and shed new light on the character of past presidents It will be indispensable to those engaged in the study of political history and political science **Anxious**

Decades: America in Prosperity and Depression, 1920-1941 Michael E. Parrish, 1994-04-17 Impressively detailed An authoritative and epic overview Publishers Weekly In the convulsive years between 1920 and 1941 Americans were first dazzled by unprecedented economic prosperity and then beset by the worst depression in their history It was the era of Model T s rising incomes scientific management electricity talking movies and advertising techniques that sold a seemingly endless stream of goods But it was also a time of grave social conflict and human suffering The Crash forced Hoover and then Roosevelt and the nation to reexamine old solutions and address pressing questions of recovery and reform economic growth and social justice The world beyond America changed also in these years making the country rethink its relation to events in Europe Latin America and Asia The illusion of superiority slowly died in the 1930s sustaining a fatal blow in December 1941 at Pearl Harbor **Why Are Our Babies Dying?** Sandra Lane, 2015-12-03 Syracuse New York in the late 1980s led U S cities in African American infant deaths Even today in this all American city infants of color die more than two times as often as white babies Infant mortality is too often addressed as if it were an isolated problem rather than part of a systemic and repeating pattern of embedded racism and structural violence The clearing of whole neighborhoods during urban renewal coupled with the collapse of industry brought unintended consequences Dilapidated rental housing abandoned houses and empty lots provide the conditions for lead poisoning gonorrhea and illicit drug use Inadequate education unemployment and racially biased arrest and sentencing underpin the epidemic of African American male incarceration Inmate fathers cannot provide financial support and only limited emotional support during collect calls from jail or prison Supermarkets fled the inner city where corner stores sell cigarettes malt liquor lottery tickets and drug paraphernalia in place of healthy food The stories and the data in this book show that low birth weight premature birth and infant death are a part of life patterns resulting from systemic discrimination increasing risk over a lifetime and in some cases reaching the next generation **Images of Germany in American Literature** Waldemar Zacharasiewicz, 2007-04 Although German

Americans number almost 43 million and are the largest ethnic group in the United States scholars of American literature have paid little attention to this influential and ethnically diverse cultural group In a work of unparalleled depth and range Waldemar Zacharasiewicz explores the cultural and historical background of the varied images of Germany and Germans throughout the past two centuries Using an interdisciplinary approach known as comparative imagology which borrows from social psychology and cultural anthropology Zacharasiewicz samples a broad spectrum of original sources including literary works letters diaries autobiographical accounts travelogues newspaper reports films and even cartoons and political caricatures Starting with the notion of Germany as the ideal site for academic study and travel in the nineteenth century and concluding with the twentieth century image of Germany as an aggressive country this innovative work examines the ever changing image of Germans and Germany in the writings of Louisa May Alcott Samuel Clemens Henry James William James George Santayana W E B Du Bois John Dewey H L Mencken Katherine Anne Porter Kay Boyle Thomas Wolfe Upton Sinclair Gertrude Stein Kurt Vonnegut Thomas Pynchon William Styron Walker Percy and John Hawkes among others

Encyclopedia of African American Society Gerald D. Jaynes, 2005-02 An encyclopedic reference of African American history and culture Homer, Eakins, and Anshutz: The Search for American Identity in the Gilded Age Randall C. Griffin, 2004 Randall Griffin's book examines the ways in which artists and critics sought to construct a new identity for America during the era dubbed the Gilded Age because of its leaders' taste for opulence Artists such as Winslow Homer Thomas Eakins and Thomas Anshutz explored alternative American themes and styles but widespread belief in the superiority of European art led them and their audiences to look to the Old World for legitimacy This rich never resolved contradiction between the native and autonomous on the one hand and on the other the European and borrowed serves as the armature of Griffin's innovative look at how and why the world of art became a key site in the American struggle for identity Not only does Griffin trace the interplay of issues of nationalism class and gender in American culture but he also offers insightful readings of key paintings by Eakins and other canonical artists Further Griffin shows that by 1900 the nationalist project in art and criticism had helped open the way for the formulation of American modernism Homer Eakins and Anshutz will be of importance to all those interested in American culture as well as to specialists in art history and art criticism The Photo-American Edward W. Newcomb, 1897 *The Jewish Image in American Film* Lester D. Friedman, 1987 **The Mormon Image in the American Mind** J.B. Haws, 2013-12 What do Americans think about Mormons and why do they think what they do This is a story where the Osmonds the Olympics the Tabernacle Choir Evangelical Christians the Equal Rights Amendment Sports Illustrated and even Miss America all figure into the equation The book is punctuated by the presidential campaigns of George and Mitt Romney four decades apart A survey of the past half century reveals a growing tension inherent in the public's views of Mormons and the public's views of the religion that inspires that body **Women's America** Linda K.
