Readers are given a clear understanding of the role of macronutrients and micronutrients and how the amino acids found in protein promote healthy growth. They also learn how to determine their recommended daily allowance RDA for protein. The authors target specific age groups as well as athletes and pregnant women and offer recommendations for how to obtain all the vital protein and nutrients their bodies require. From a lower carbon footprint to plant compounds that help reduce the risk of chronic diseases the case for eating more plant protein is strong. Pantry suggestions, cooking tips and thirty recipes make it easy to put this essential information into practice.
