resources and conducting high quality research that benefits humanity However universities must take a more significant part and be innovative and creative in engaging and supporting the development opportunities and consolidation of the Global community To embark on this role effectively universities must always foster communication and discussion among academicians scholars practitioners and policymakers under the Sustainability Development Goals SDGs Academia Government Business and Communities must increasingly cooperate to achieve academic and research excellence and constructive solutions to current business and economic issues Sustainable Collaboration in Business Information and Innovation SCBTII 2023 is an international conference that brings together academics professionals entrepreneurs researchers learners and other associated groups from all over the world that is interested in theories as well as practices in the field of the digital economy for global competitiveness This conference provides opportunities for presenters and participants to exchange new ideas and experiences create research relationships and find international partners for future collaboration to respond to economy business social and technological development challenges successfully and effectively for better life well being
