Priming Translation Douglas Robinson,2022-09-15 This innovative volume builds on Michael S Gazzaniga s Interpreter Theory toward radically expanding the theoretical and methodological scope of translational priming research Gazzaniga s Interpreter Theory based on empirical studies carried out with split brain patients argues for the Left Brain Interpreter LBI a module in the brain s left hemisphere that seeks to make sense of their world based on available evidence and where no evidence is available primed by past memories confabulates coherence The volume unpacks this idea in translation research to test whether translators are primed to confabulate by the LBI in their own work Robinson investigates existing empirical

research to test hypotheses on the translational links between the LBI and cognitive priming the Right Brain Interpreter and affective priming and the Collective Full Brain Interpreter and social priming Taken together the book seeks to open translational priming studies up to the full range of cognitive affective and social primes and to prime cognitive translation researchers to implement this broader dynamic in future research This book will be of interest to scholars in translation and interpreting studies especially those working in cognitive translation and interpreting studies Now is the Time of Monsters: An absolutely gripping psychological thriller with a shocking twist A.G. Mock, 2024-10-15 Three visions of death Two women trapped in a killer's lair One chance to survive The Summer of Love has been replaced by the Summer of Fear as a sadistic killer prowls the streets of San Francisco Known only as The Gemini his brutal murders have the city paralyzed in a merciless grip of terror as he taunts police with a series of cryptic puzzles and the body count rises As detectives work to unravel the Gemini's chilling clues the line between nightmare and reality begins to blur when Cassie Kennedy a newly separated young mother and part time psychic discovers that her dreams are foretelling the gruesome deaths of three women Thrust into the heart of the investigation it becomes a desperate fight for survival when the horrifying truth emerges Cassie may know the Gemini more intimately than she ever imagined Set against the gritty backdrop of 1969 San Francisco Now is the Time of Monsters is a pulse pounding thriller that blurs the razor thin line between predator and prey fact and fiction For fans of dark gripping suspense you're one click away from a thrill ride you'll never forget *Suspense* Peter Vorderer, Hans Jurgen Wulff, Mike Friedrichsen, 2013-12-16 This volume begins with the general assumption that suspense is a major criterion for both an audience's selection and evaluation of entertaining media offerings This assumption is supported not only by the popularity of suspenseful narratives but also by the reasons users give for their actual choice of media contents Despite this there is no satisfying theory to describe and explain what suspense actually is how exactly it is caused by films or books and what kind of effect it has on audiences This book's main objective is to provide that theory by bringing together scholars from different disciplines who are working on the issue The editors' goal is to reflect the state of the art as much as it is to highlight and encourage further developments in this area There are two ways of approaching the problem of describing and explaining suspense an analysis of suspenseful texts or the reception process Researchers who follow the more text oriented approach identify the uncertainty of the narrative outcome the threat or danger for the protagonist the play with time delay or other factors as important and necessary for the production of suspense The more reception oriented scholar focuses on the cognitive activities of audiences readers' expectations the curiosity of onlookers their emotions and their relationships with the protagonists A correspondence between the two seems to be quite difficult though necessary to determine Both perspectives are important in order to describe and explain suspense Thus the editors utilize the thesis that suspense is an activity of the audience reader onlooker etc that is related to specific features and characteristics of the text books films etc Their question is What kind of relation The answer comes from finding out how why

and which elements of the text cause effects that are experienced as suspense Scholars from semiotics literary criticism cultural studies and film theory assess the problem from a text oriented point of view dealing primarily with the how and which Other scholars present the psychological perspective by focusing on the cognitive and emotional processes that underlie viewers experience of suspense that is the reception theory tries to answer the question of why suspenseful texts may be experienced as they are
