Benjamin White Allnutt,1954 Children ,1963 *Drawing New Color Lines* Monica Chiu,2014-11-01 The global circulation of comics manga and other such visual mediums between North America and Asia produces transnational meanings no longer rooted in a separation between Asian and American *Drawing New Color Lines* explores the culture production and history of contemporary graphic narratives that depict Asian Americans and Asians It examines how Japanese manga and Asian popular culture have influenced Asian American comics how these comics and Asian American graphic narratives depict the look of race and how these various representations are interpreted in nations not of their production By

focusing on what graphic narratives mean for audiences in North America and those in Asia the collection discusses how Western theories about the ways in which graphic narratives might successfully overturn derogatory caricatures are themselves based on contested assumptions and illustrates that the so called odorless images featured in Japanese manga might nevertheless elicit interpretations about race in transnational contexts With contributions from experts based in North America and Asia *Drawing New Color Lines* will be of interest to scholars in a variety of disciplines including Asian American studies cultural and literary studies comics and visual studies *Drawing New Color Lines* makes an exciting contribution to the rapidly expanding inquiry at the crossroads of Asian American literary studies graphic narrative studies and transnational studies Foregrounding the shifting meanings of race within across and between various national contexts the fifteen essays in Chiu's collection explore the visual dimensions of Asian American transnational literary culture with originality and offer particular insight into the complexities of production interpretation and reception for graphic narrative Pamela Thoma author of *Asian American Women's Popular Literature Feminizing Genres and Neoliberal Belonging* An informative smart and necessary collection *Drawing New Color Lines* investigates a growing and important field transnational Asian American comics with sophistication and breadth Hillary Chute author of *Graphic Women Life Narrative and Contemporary Comics* and *Outside the Box Interviews with Contemporary Cartoonists* Princeton Alumni Weekly, 1998 **International Labor**, 1970 **Disabilities and Disorders in Literature for Youth** Alice Crosetto, Rajinder Garcha, Mark Horan, 2009-09-01 This reference volume identifies almost 1 000 resources to help educators professionals parents siblings guardians and students understand the various disabilities and disorders faced by children today **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1972 Working the Phones Jamie Woodcock, 2016-11-20 Shortlisted for the BBC Radio 4 Thinking Allowed Award for Ethnography 2017 Winner of the 2016 Labor History Best Book prize Over a million people in the UK work in call centres and the phrase has become synonymous with low paid and high stress work dictatorial supervisors and an enforced dearth of union organisation However rarely does the public have access to the true picture of what goes on in these institutions For *Working the Phones* Jamie Woodcock worked undercover in a call centre to gather insights into the everyday experiences of call centre workers He shows how this work has become emblematic of the shift towards a post industrial service economy and all the issues that this produces such as the destruction of a unionised work force isolation and alienation loss of agency and ominously the proliferation of surveillance and control which affects mental and physical well being of the workers By applying a sophisticated radical analysis to a thoroughly international 21st century phenomenon *Working the Phones* presents a window onto the methods of resistance that are developing on our office floors and considers whether there is any hope left for the modern worker today **Doing Disability Differently** Jos Boys, 2014-05-23 This ground breaking book aims to take a new and innovative view on how disability and architecture might be connected Rather than putting disability at the end of the design process centred mainly on compliance it sees disability

and ability as creative starting points for the whole design process It asks the intriguing question can working from dis ability actually generate an alternative kind of architectural avant garde To do this Doing Disability Differently explores how thinking about dis ability opens up to critical and creative investigation our everyday social attitudes and practices about people objects and space argues that design can help resist and transform underlying and unnoticed inequalities introduces architects to the emerging and important field of disability studies and considers what different kinds of design thinking and doing this can enable asks how designing for everyday life in all its diversity can be better embedded within contemporary architecture as a discipline offers examples of what doing disability differently can mean for architectural theory education and professional practice aims to embed into architectural practice attitudes and approaches that creatively and constructively refuse to perpetuate body norms or the resulting inequalities in access to and support from built space Ultimately this book suggests that re addressing architecture and disability involves nothing less than re thinking how to design for the everyday occupation of space more generally Resources in Education ,1999
