the 1850s The authors all experts in phonetics and sociolinguistics use the data to test previous explanations for new dialect formation and to challenge current claims about the nature of language change The first ever corpus based study of the evolution of New Zealand English this book will be welcomed by all those interested in phonetics sociolinguistics historical linguistics and dialectology **English Regional Planning 2000-2010** Corinne Swain,Tim Marshall,Tony Baden,2013
