Myth Retelling Novel Advanced Strategies:

Between History and Myth Bruce Lincoln, 2024-05-31 All groups tell stories about their beginnings. Such tales are often repeated, finely wrought and usually much beloved. Among those institutions most in need of an impressive creation account is the state; it is one of the primary ways states attempt to legitimate themselves. But such founding narratives invite revisionist retellings that modify details of the story in ways that undercut, ironize and even ridicule the state's ideal self-representation. Medieval accounts of how Norway was unified by its first king provide a lively, revealing and wonderfully entertaining example of this process. Taking the story of how Harald Fairhair unified Norway in the ninth century as its central example, Bruce Lincoln illuminates the way a state's foundation story blurs the distinction between history and myth and how variant tellings of origin stories provide opportunities for dissidence and subversion as subtle or not so subtle modifications are introduced through details of character, incident and plot structure. Lincoln reveals a pattern whereby texts written in Iceland were more critical and infinitely more subtle than those produced in Norway, reflecting the fact that the former had a dual audience: not just the Norwegian court but also Icelanders of the twelfth and thirteenth centuries whose ancestors had fled from Harald and founded the only non-monarchic, indeed anti-monarchic state in medieval Europe. **Between History and Myth** will appeal not only to specialists in Scandinavian literature and history but also to anyone interested in memory and narrative.

writing or revisioning of mythical texts As such it studies the ways in which Beat poets incorporate mythology into their works both through the feminist reinvention or appropriation of ancient myths but also by debunking more contemporary myths used to contain women in particular social and artistic roles Furthermore this volume expands Rich's notion of revision considering memoirs and autobiographies as factual and fictional reinterpretations of history Seen through the eyes of revisionist studies and the poets investment in personal myth the book establishes new points of entrance into works that allow us to explore the feminist political and poetical relevance of the work of Beat women

Fairy Tales, Myth, and Psychoanalytic Theory Veronica L. Schanoes, 2016-04-15 At the same time that 1970s feminist psychoanalytic theorists like Jean Baker Miller and Nancy Chodorow were challenging earlier models that assumed the masculine psyche as the norm for human development and mental emotional health writers such as Anne Sexton Olga Broumass and Angela Carter were embarked on their own revisionist project to breathe new life into fairy tales and classical myths based on traditional gender roles Similarly in the 1990s second wave feminist clinicians continued the work begun by Chodorow and Miller while writers of fantasy that include Terry Windling Tanith Lee Terry Pratchett and Catherynne M Valente took their inspiration from revisionist authors of the 1970s As Schanoes shows these two decades were both particularly fruitful eras for artists and psychoanalytic theorists concerned with issues related to the development of women's sense of self Putting aside the limitations of both strains of feminist psychoanalytic theory their influence is undeniable Schanoes's book posits a new model for understanding both feminist psychoanalytic theory and feminist retellings one that emphasizes the interdependence of theory and art and challenges the notion that literary revision involves a masculinist struggle with the writer's artistic forbearers

Arnold Stein,2023-11-15 Milton's *Paradise Lost* is a profound exploration of the poet's presence within his work blending his role as a poet prophet with the challenges of conveying grandeur and divine themes through poetic mastery Milton presents himself as a figure of immense dedication overcoming personal adversities including blindness to embody a sense of sublime confidence and humility His voice deeply imbued with strength and austerity resonates through the poem commanding attention and reflection while balancing personal convictions with the broader truths of art and morality The narrative voice alternates between anonymity and distinct personality enriching the poem's texture with moments of vibrant clarity and deliberate mystery compelling readers to confront both its complexities and Milton's creative force Critics have long debated the depth of Milton's self revelation in the poem with interpretations ranging from seeing him as a detached craftsman to an intensely autobiographical figure Yet Milton's ability to merge his identity with the universal themes of his work makes *Paradise Lost* not only a masterpiece of literary imagination but also a testament to the enduring dialogue between creator creation and audience Through this interplay Milton transcends simple authorial presence engaging readers in an ongoing exploration of human and divine narratives a conversation as relevant today as in its own time This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977
