Viral Fantasy Saga Advanced Strategies:

Story Virality Monica Leonelle, 2021-05-25 You know how to market your book but is the book itself making it harder to gain traction This is a question that all writers and authors struggle with We aren't always great at evaluating our own work whether we are new to publishing or on our twentieth book And the answers we get from other authors is usually to Write to a more popular trend End the series faster Hire a developmental editor Try a new marketing tactic Change the cover or blurb Write the next book But here's the thing your back catalog is not dead weight You worked hard on your book or series and there's no reason you can't get it selling better Without having to write to a trend you're not passionate about Without having to add in tropes that don't make sense Without having to hire another editor editors can't fix a marketing issue within your story Without having to change your writing style Without having to do what everyone else says is the only thing that's selling right now Editing For Marketability is new and different It's an advanced approach to writing to market that breaks down why books sell based on persuasive writing techniques found across storytelling branding psychology public relations and marketing And yes it applies readily to novels I share the how in the book When you practice marketability editing you take your story through the Book Virality Stack a framework with six virality factors that helps you see where your book has marketing hooks and where it doesn't I teach you how to improve your marketability under each factor so you get to choose I also teach you how you can better emphasize the various hooks you already have in your book if you've already published and don't have time for a full edit You can use this framework to Make sure your next release is written to market Fix an underperforming first in series or other reader magnet so your series starts selling better Build a breakout book from the ground up to bring visibility to your entire catalog You became a creative to express yourself and share your stories Editing For Marketability helps you connect to a larger audience without sacrificing your characters plot or autonomy over your work **Technical Abstract Bulletin**, 1982 Millennial Mythmaking John Perlich, David Whitt, 2010-03-08

Contemporary myths particularly science fiction and fantasy texts can provide commentary on who we are as a culture what we have created and where we are going These nine essays from a variety of disciplines expand upon the writings of Joseph Campbell and the hero's journey Modern examples of myths from various sources such as Planet of the Apes Wicked Pan's Labyrinth and Spirited Away the Harry Potter series and Second Life are analyzed as creative mythology and a representation of contemporary culture and emerging technology Practical Hepatic Pathology: A Diagnostic Approach E-Book Romil Saxena, 2011-02-11 Practical Hepatic Pathology a new volume in the new Pattern Recognition series offers you a practical guide to diagnosing every challenging liver biopsy that you encounter in your daily practice Dr Romil Saxena presents diagnoses according to a pattern based organization that guides you from a histological pattern of injury through the appropriate work up around the pitfalls and to the best diagnosis Lavish full color images capture key hepatic pathology patterns of injury pathognomonic features and common variations of all major liver diseases and hepatic neoplasms No other

single source delivers the practical hands on information you need to solve even the toughest diagnostic challenges in liver biopsies Recognize the basic patterns of liver injury through an algorithmic approach and establish diagnosis by a pattern based visual index present at the beginning of the book Evaluate and interpret biopsy samples using superb high quality full color images that illustrate pathognomonic features and common variations Get comprehensive information on major adult and childhood liver diseases hepatic neoplasms and pre neoplastic nodules including clinical features laboratory tests imaging findings and differential diagnosis Understand the pathology and practice of liver transplantation with coverage of the clinical aspects of this procedure **The Software Encyclopedia 2001** ,2001 **Innovative Digital Practices and Globalization in Higher Education**

Keengwe, Jared,2023-02-17 We are moving toward a future in which digital practices are becoming more ubiquitous Also there is evidence to suggest that innovative digital practices are changing the face of 21st century learning environments Critical to 21st century teaching and learning success is continued emphasis on learner preferences shaped by innovative digital technology driven learning environments alongside teacher awareness knowledge and preparedness to deliver high impact instruction using active learning pedagogies Thus the purposeful and selective use of digital learning tools in higher education and the incorporation of appropriate active learning pedagogies are pivotal to enhancing and supporting meaningful student learning Innovative Digital Practices and Globalization in Higher Education explores innovative digital practices to enhance academic performance for digital learners and prepare qualified graduates who are competent to work in an increasingly global digital workplace Global competence has become an essential part of higher education and professional development As such it is the responsibility of higher education institutions to prepare students with the knowledge skills and competencies required to compete in the digital and global market Covering topics such as design thinking international students and digital teaching innovation this premier reference source is an essential resource for pre service and in service teachers educational technologists instructional designers faculty administrators librarians researchers and academicians Index Medicus ,2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings Cue ,1970 The Digital Rights Delusion Andrea Monti,2023-03-31 This book examines the ever increasing impact of technology on our lives and explores a range of legal and constitutional questions that this raises It considers the extent to which concepts such as cyberspace and digital rights advance or undermine our understanding of this development and proposes a number of novel approaches to the effective protection of our rights in this rapidly evolving environment Finally it shows how the abuse of the adjective digital has demoted legal rights into subjective and individual claims The work will be of particular interest to scholars of privacy artificial intelligence and free speech as well as policymakers and the general reader **Resources in Education** ,1989
