Letters Arthur Symons,1989-06-18 A selection of letters by the symbolist critic and poet Arthur Symons 1865 1945 including correspondence with such figures as James Joyce W B Yeats Joseph Conrad Paul Verlaine Edmund Gosse Thomas Hardy and Augustus John to reveal the world of literary London at the turn of the century *Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Wherein the Copyright Has Been Completed by the Deposit of Two Copies in the Office* Library of Congress. Copyright Office,1969 **Literature and Money** ,2023-12-18 At a time when the dull rationality of the money calculus seems to be making ground in every sphere it is perhaps opportune to reopen the question of literature and its relations with a rationality defined according to the logic of economic exchange what kinds of value flow from such a rationality and what possibilities of resistance are there if we happen not to like the model and its more rebarbative ideological implications Historically attempts

to reduce the richness of human exchange to utilitarian or economic paradigms have met with counter cultural expressions of dissent and defiance And yet the search for an authentic community outside the reifications and repressions of economic exchange presents its own ambiguities and pitfalls since the attempt to ground value in other spheres can function ideologically to secure and legitimize the very values it seeks to oppose This is especially true in literature and other expressions of high culture where mobilizations of the aesthetic or the textual as a site of resistance to economic hegemony are frequently recuperated in advance by the dominant discourse The essays collected here tend then to explore in various ways not only the ideological implications of literary or more broadly cultural representations or constructions of economic exchange but also the often complex mediations that such constructions enter into with different kinds of oppositional discourse

Under Siege Ian Bullock, 2017-11-30 During the period between the two world wars the Independent Labour Party ILP was the main voice of radical democratic socialism in Great Britain Founded in 1893 the ILP had since 1906 operated under the aegis of the Labour Party As that party edged nearer to power following World War I forming minority governments in 1924 and again in 1929 the ILP found its own identity under siege On one side stood those who wanted the ILP to subordinate itself to an increasingly cautious and conventional Labour leadership on the other stood those who felt that the ILP should throw its lot in with the Communist Party of Great Britain After the ILP disaffiliated from Labour in 1932 in order to pursue a new revolutionary policy it was again torn this time between those who wanted to merge with the Communists and those who saw the ILP as their more genuinely revolutionary and democratic rival At the opening of the 1930s the ILP boasted five times the membership of the Communist Party as well as a sizeable contingent of MPs By the end of the decade having tested the possibility of creating a revolutionary party in Britain almost to the point of its own destruction the ILP was much diminished although unlike the Communists it still retained a foothold in Parliament Despite this reversal of fortunes during the 1930s years that witnessed the ascendancy of both Stalin and Hitler the ILP demonstrated an unswerving commitment to democratic socialist thinking Drawing extensively on the ILP's Labour Leader and other contemporary left wing newspapers as well as on ILP publications and internal party documents Bullock examines the debates and ideological battles of the ILP during the tumultuous interwar period He argues that the ILP made a lasting contribution to British politics in general and to the modern Labour Party in particular by preserving the values of democratic socialism during the interwar period
