Fulgham,2013-04-01 Children living in poverty have the same God given potential as children in wealthier communities but on average they achieve at significantly lower levels Kids who both live in poverty and read below grade level by third grade are three times as likely not to graduate from high school as students who have never been poor By the time children in low income communities are in fourth grade they re already three grade levels behind their peers in wealthier communities More than half won t graduate from high school and many that do graduate only perform at an eighth grade level Only one in ten will go on to graduate from college These students have severely diminished opportunities for personal prosperity and professional success It is clear that America s public schools do not provide a high quality public education for the sixteen million children growing up in poverty Education expert Nicole Baker Fulgham explores what Christians can and should do to champion urgently needed reform and help improve our public schools The book provides concrete action steps for working to ensure that all of God s children get the quality public education they deserve It also features personal narratives from the author and other Christian public school teachers that demonstrate how the achievement gap in public education can be solved

Catalogue of the Printed Books in the Library of the Faculty of Advocates , **The System of National Education in Ireland, Its Principle and Practice (Classic Reprint)** J. C. Colquhoun,2015-07-10 Excerpt from The System of National Education in Ireland Its Principle and Practice The object of these pages may be briefly stated It is not I entreat the public to understand the exposure of Mr Carlile or of any of the Commissioners of the Board of National Education That object would never have induced me to take up the pen The conduct of the Commissioners is a matter quite incidental to the question and on which if I could have avoided it I should have been glad to pronounce no opinion My object was the exposure of the system and of that system the Commissioners form but a small part The evil lies in the machine not in the men who work it They of course become implicated by their position but if they were changed again and again the mischief would remain unmitigated That evil lies in uniting together men of opposite religious opinions and committing to them the superintendence of popular education That is the inherent vice of the system and wherever that vice is repeated the same results will appear It is all the more necessary to bring this before the public at the present time that an attempt is made to infuse the venom of this system both into England and Scotland A struggle has commenced and with the same party a struggle to establish Liberalism in education Liberalism in religion or the Voluntary System has for some years been obtruded upon us Liberalism in education is now thrust on our notice About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Public**
