Anderson, 2014-07-29 Master the latest in the ever evolving field of histology with the in depth and visually engaging Stevens and Lowe's Human Histology. Intended as a complete introduction to the subject, this updated medical reference book incorporates clinical correlations and case studies with the basic information that's essential for students to thrive in the medical environment. Learn from an easy to read writing style and well designed full color layout to present of all histology's need to know content. Conveniently access important information through a design that sets off the key laboratory, clinical and high level scientific material in boxes. Take advantage of an increased amount of clinical content and photos. Master the basics of the field with an enhanced focus on cell biology. Quickly review important information with reviews available at the end of each chapter. Key Facts boxes throughout the chapters and MCQs in the text. Easily visualize complex procedures and concepts with nearly 900 illustrations, photos and graphics. Consult this title on your favorite e reader, conduct rapid searches and adjust font sizes for optimal readability. Blood and Blood Components, Hematopoiesis, Selected Methods Used in Cytology, Histology and Hematology Věra Křížková, 2021-02-01 In this work morphological findings normal and modified blood elements are associated with specific clinical conditions. In addition selected methods used for the detection, identification, isolation and research of blood cells have been described. The parts are arranged in a logical manner to help the reader with quick orientation. This information is important for students, researchers and medical practitioners. Our text may serve as a study material with the goal of preparing students not only for education in pre clinical sciences but also for subsequent branches of clinical medicine particularly hematology, hemat oncology and hematopathology. That is the reason why we connected the original basics in morphology with additional information which extends and applies the basic facts. Information Resources in Toxicology P.J. Bert Hakkinen, Asish Mohapatra, Steven G. G. Gilbert, 2009-08-19 This latest version of Information Resources in Toxicology IRT continues a tradition established in 1982 with the publication of the first edition in presenting an extensive itemization, review and commentary on the information infrastructure of the field. This book is a unique wide ranging international annotated bibliography and compendium of major resources in toxicology and allied fields such as environmental and occupational health, chemical safety and risk assessment. Thoroughly updated, the current edition analyzes technological changes and is rife with online tools and links to Web sites. IRT IV is highly structured providing easy access to its information. Among the hot topics covered are Disaster Preparedness and Management, Nanotechnology, Omics, the Precautionary Principle, Risk Assessment and Biological Chemical and Radioactive Terrorism and Warfare are among the designated International in scope with contributions from over 30 countries. Numerous key references and relevant Web links. Concise narratives about toxicologic sub disciplines. Valuable appendices such as the IUPAC Glossary of Terms in Toxicology. Authored by experts in their respective sub disciplines within toxicology. **Stevens & Lowe's Human Histology - E-Book**
