and the continuing segregation of users into niches has led to a proliferation of cultural products targeted to and consumed by women. Though often dismissed as frivolous or excessively emotional, feminized culture in reality offers compelling insights into the American experience of the early twenty-first century. Elana Levine brings together writings from feminist critics that chart the current terrain of feminized pop cultural production. Analyzing everything from *Fifty Shades of Grey* to Pinterest to pregnancy apps, contributors examine the economic, technological, representational, and experiential dimensions of products and phenomena that speak to and about the feminine. As these essays show, the imperative of productivity currently permeating feminized pop culture has created a generation of texts that speak as much to women's roles as public and private workers as to an impulse for fantasy or escape. Incisive and compelling, *Cupcakes, Pinterest, and Lady Porn* sheds new light on contemporary women's engagement with an array of media forms in the context of postfeminist culture and neoliberalism.

Tech Hacks for Busy Bees: Tools and Apps to Simplify Your Life Mason Reed, Imagine waking up to the sound of your smartphone alarm, checking your emails over breakfast, attending virtual meetings, and managing your to-do lists all day long. Sound familiar? Welcome to the modern-day juggle where balancing work, life, and technology has become a daily challenge. But did you know that the very technology contributing to your busy life can also be your greatest ally in managing it? This chapter explores how technology can simplify tasks and introduces you to the world of tech hacks that can transform your daily routine.

E-Learning and the Academic Library Scott Rice, Margaret N. Gregor, 2016-04-27 Focusing on academic libraries and librarians who are extending the boundaries of e-learning, this collection of essays presents new ways of using information and communication technologies to create learning experiences for a variety of user communities. Essays feature e-learning projects involving MOOCs, massive open online courses, augmented reality, chatbots, and other innovative applications. Contributors describe the process of project development from determination of need to exploration of tools, project design, and user assessment.
