

PREFACE

This service manual deals with the STIHL 041 AV and 041 AV electronic chain saws from machine No. 2768500 onwards. The manual is also generally applicable to 041 and 041 Farm Boss models. However, it is advisable to consult the illustrated parts lists in the case of repairs to the hand grip, handlebar or throttle mechanism.

In the event of faults it is quite possible that a single fault can have several causes. It is therefore advisable to consult the "Trouble Shooting Chart" at the beginning of each chapter when tracing faults.

Our "Technical Information" bulletins give details of engineering changes which have been introduced since publication of this service manual.

This service manual and all technical information bulletins are intended exclusively for the use of STIHL servicing staff and dealers and must not be passed on to third parties. Repair work is made considerably easier if the chain saw is mounted on assembly stand 59108503100. The saw is easily attached to the

stand by means of the two stud bolts and collar nuts for bar mounting.

While on the assembly stand the chain saw can be swivelled into any required position to suit the repair in question. This not only has the advantage of keeping the component in the best position for the repair but also leaves both hands free for the work and thus represents a considerable time saving.

Our special tool manual illustrates and lists the part numbers of all available machine-related tools as well as general purpose tools for all machines.

This special tool manual is available in various languages and can be ordered by quoting the appropriate part number listed hereunder.
