Unit, Direct Support, and General Support Maintenance Manual (including Repair Parts and Special Tools List), 1992 [Nasa New Millennium Problems and Solutions](#) Don A. Nelson, 2001-06-27 THIS BOOK PREDICTED COLUMBIA DISASTER. NASA New Millennium Problems and Solutions is a wake-up call about the dire conditions of the U.S. space transportation program. NASA's management philosophy of faster, better, cheaper has resulted in the Agency trying to do too much with too little, too fast. The space program's momentum has been eroded by NASA's numerous project failures, cost overruns, and mismanagement. NASA's space transportation operations have been compromised to the point where serious safety conditions exist. Astronauts, ground personnel, and even the general public are exposed to unsafe flight operations. This book examines the following daunting questions: Why isn't the Space Shuttle safe? Why doesn't the Space Shuttle have a crew escape system? What happened to NASA's commercial Space Shuttle? Will the International Space Station be worth the cost? Was the X-33 VentureStar launch project a 1-billion-dollar blunder? Are the proposed X-33 population overflight tests safe? Will the human exploration of Mars be postponed for decades? Is there light at the end of this dark tunnel? This book gives the reader with an insider's knowledge of decisions that have placed the future of the U.S.
