Synagogue Life Synagogue Life:

Synagogue Life , Via a participant observer approach Synagogue Life analyzes the three essential dimensions of synagogue life the houses of prayer study and assembly In each Heilman documents the rich detail of the synagogue experience while articulating the social and cultural drama inherent in them He illustrates how people come to the synagogue not only for spiritual purposes but also to find out where and how they fit into life in the neighborhood in which they share In his new introduction Heilman discusses what led him to write this book and the process of personal transformation through which he as an Orthodox Jew had to go in order to turn a disciplined eye on the world from which he came Rather than using the stranger as native approach of classic anthropology he had instead to begin as a native who discovered how to look at a once taken for granted synagogue life like a stranger In the afterword arguing for the efficacy of this approach Heilman offers guidance on how natives can use their special familiarity and still be trained to distance themselves from their own group making use of the disciplines of sociology and anthropology Synagogue Life offers a fascinating portrait that has something to say to social scientists as well as all those curious about what happens in the main arena of Orthodox Jewish community life

Judaism Dana Evan Kaplan, 2011 No longer controlled by a handful of institutional leaders based in remote headquarters and rabbinical seminaries American Judaism is being transformed by the spiritual decisions of tens of thousands of Jews living all over the United States A pulpit rabbi and himself an American Jew Dana Evan Kaplan follows this religious individualism from its postwar suburban roots to the hippie revolution of the 1960s and the multiple postmodern identities of today From Hebrew tattooing to Jewish Buddhist meditation Kaplan describes the remaking of historical tradition in ways that channel multiple ethnic and national identities While pessimists worry about the vanishing American Jew Kaplan focuses on creative responses to contemporary spiritual trends that have made a Jewish religious renaissance possible He believes that the reorientation of American Judaism has been a bottom up process resisted by elites who have reluctantly responded to the demands of the spiritual marketplace The American Jewish denominational structure is therefore weakening at the same time that religious experimentation is rising leading to the innovative approaches supplanting existing institutions The result is an exciting transformation of what it means to be a religious American Jew in the twenty first century

Death, Bereavement, And Mourning Samuel C. Heilman, An encounter with the death of another is often an occasion when the bereaved need to be sustained in their loss relieved of the anxiety that the meeting with death engenders and comforted in their grief It is a time when those left behind often seek to redress wrongs in themselves or in the relationships that death has shaken and upset In both collective and individual responses to the trauma of encountering death we witness efforts to counter the misfortune and to explain the meaning of the loss to turn memory into blessing to reconcile life with death to regenerate life and redeem both the bereaved and the dead Sometimes loss may transform the bereaved in ways that lead to growth and maturity other times a loss leads to unrelenting anger or melancholia There may be a variety of spiritual expressions that the bereaved experience in their time of loss but there appears to be some common elements in all of them Overtime survivors feelings are transformed into growing exploration of the spiritual a profound sense of rebirth newfound feelings of self mastery or confidence and a deeply held conviction that life goes on The contributions to this volume are based on a conference held in New York on the first anniversary of September 11 2001 Contributors include Peter Metcalf Robert Jay Lifton Ilana Harlow Robert A Neimeyer Samuel Heilman and Neil Gillman This sensitive and heartfelt volume relates specifically to issues of death bereavement and mourning in the aftermath of the attack on the World Trade Center but the applications to other individual and catastrophic events is obvious The contributions do not simply explore how people deal with bereavement or are psychologically affected by extreme grief they address how people can try to find meaning in tragedy and loss and strive to help restore order in the wake of chaos The multidisciplinary perspectives include those of anthropology psychology theology social work and art Samuel Heilman is the Distinguished Professor of Sociology and holder of the Harold Proshansky Chair in Jewish Studies and Sociology at the City University of New York and has also taught at the University of Illinois at Chicago the Hebrew University in Jerusalem Tel Aviv University and the Universities of New South Wales and Melbourne He is the author of several books including Synagogue Life and The People of the Book both published in paperback by Transaction

Rethinking Synagogues Rabbi Lawrence A. Hoffman, PhD, 2012-05-24 A critical and challenging look at reinventing the synagogue as the centerpiece of a refashioned Jewish community America is undergoing a spiritual revolution only the fourth religious awakening in its history I plead therefore for an equally spiritual synagogue knowing that any North American Jewish community that hopes to be around in a hundred years must have religion at its center with the synagogue the religious institution that best fits North American culture at its very core from Chapter 1 Synagogues are under attack and for good reasons But they remain the religious backbone of Jewish continuity especially in America the sole Western industrial or post industrial nation where religion and spirituality continue to grow in importance

To fulfill their mandate for the American future synagogues need to replace old and tired conversation with a new way of talking about their goals their challenges and their vision for the future In this provocative clarion call for synagogue transformation Rabbi Lawrence A Hoffman summarizes a decade of research with *Synagogue 2000* a pioneering experiment that reconceptualized synagogue life providing fresh ways for synagogues to think as they undertake the exciting task of global change

The New American Judaism Jack Wertheimer, 2020-03-31 Winner of the National Jewish Book Award in American Jewish Studies an engaging firsthand portrait of American Judaism today American Judaism has been buffeted by massive social upheavals in recent decades Like other religions in the United States it has witnessed a decline in the number of participants over the past forty years and many who remain active struggle to reconcile their hallowed traditions with new perspectives from feminism and the LGBTQ movement to do it yourself religion and personally defined spirituality Taking a fresh look at American Judaism today Jack Wertheimer a leading authority on the subject sets out to discover how Jews of various orientations practice their religion in this radically altered landscape Which observances still resonate and which ones have been given new meaning What options are available for seekers or those dissatisfied with conventional forms of Judaism And how are synagogues responding Offering new and often surprising answers to these questions Wertheimer reveals an American Jewish landscape that combines rash disruption and creative reinvention religious illiteracy and dynamic experimentation

Congregation James F. Hopewell, In a unique full scale study of congregational life Hopewell shows that it is narrative the oral tradition that knits a congregation together

Judaism in America Marc Lee Raphael, 2003 This book is about the beliefs doctrines history institutions and leaders of the Jewish religious community It is based on historical evidence as well as interviews and direct observation of about 100 synagogues in the country and presents a full portrait of a religious tradition that comprises only two percent of America's population but has a large influence on American culture

The Crypto-Jewish Mashhadis Hilda Nissimi, 2006-12-01 This book tells the little known story of a fascinating crypto Jewish community through two centuries and three continents Beginning as a precarious settlement of a few families in mid 18th century Mashhad an Islamic holy city in northern Iran the community grew into a closely knit group in response to their forced conversion to Islam in 1839 Muslim hostility and a culture of memory sustained by intra communal marriages reinforced their separate religious identity vesting it in strong family and communal loyalty Mashhadi women became the main agents of the cultural transmission of communal identity and achieved social roles and high status uncharacteristic for contemporary Jewish and Muslim communities The Mashhadis maintained a double identity upholding Islam in public while tenaciously holding onto their Jewish identity in secret The exodus from Mashhad after 1946 relocated the communal center to Tehran later to Israel and after the Khomeini revolution to New York The relationship between the formation and retention of communal identity and memory practices with interconnected issues of religion and gender draws upon existing research on other crypto faith communities such as the Judeoconversos the Moriscos and the French Protestants who through the

special blend of memory faith and ethnicity emerged strengthened from their underground period For the immigration period the author challenges the old paradigm that modernity and religion are mutually exclusive The book also explores the sometimes uncomfortable yet intimate relationships that exist between seemingly incompatible ways of seeing the past both secular and religious
