Wayne, 1998-09-20 Wayne's study offers an impressive range of readings and critical methodologies within a collection of exceptional coherence. *Dissident Voices* is consistently compulsive reading and a must for all students and specialists in the field of recent and contemporary television culture. Professor Madeleine MacMurrough Kavanagh, University of Reading. Two decades of institutional and structural changes in television broadcasting have both informed and reflected profound shifts in British culture. How have programme makers themselves approached the tensions and anxieties of the last twenty years? *Dissident Voices* examines the ways in which certain forms and genres have registered a period of cultural upheaval and to what extent they have developed a more reflexive and a more critical television culture. This collection covers a broad range of issues including class, gender and sexuality, the monarchy, identity and nationhood. It examines their representation in a variety of dramas and genres including police procedurals, documentaries, game shows, sitcoms and satire. The contributors challenge the notion of television as a bland purveyor of the status quo, presenting it as a complex and potentially subversive medium. Television culture is portrayed here as still resistant to the total control of either markets or ideologies. In an age of political consensus, it is an important and popular site where anxiety about and dissent from current social trends frequently surface.

Feminist Posthumanism in Contemporary Science Fiction Film and Media Julia A. Empey, Russell J.A. Kilbourn, 2023-08-24 *Feminist Posthumanism in Contemporary Science Fiction Film and Media* From Annihilation to *High Life* and *Beyond* places posthumanism and feminist theory into dialogue with contemporary science fiction film and media. This essay collection is intimately invested in the debates around the posthuman and the critical posthumanities within a feminist critical theoretical framework. In this posthumanist light, science fiction as a genre allows for new imaginings of human technological relations while it can also be the site of a critique of human exceptionalism and essentialism. In this way, science fiction affords unique opportunities for the scholarly investigation of the relevance and relative applicability of specific posthumanist themes and questions in a particularly rich and wide-ranging popular cultural field of production. One of the reasons for this suitability is the genre's historically longstanding relationship with the critical investigation of gender, specifically the position and relative empowerment of women. The original analyses presented here pay close attention to

audiovisual style including game mechanics facilitating the critical interrogation of the issues and questions around posthumanism. Where typically the mention of SF in the posthumanist context calls to mind a whole set of often clichéd tropes: the cyborg, technologically augmented bodies, AI subjectivities etc. This volume's thirteen chapters analyze specific examples of contemporary SF cinema that engage in meaningful ways with the burgeoning field of critical posthumanism and that utilize such films to interrogate posthumanist and feminist as well as humanistic ideas.
